Data Quality Plan

HMIS@NCCEH DQ Plan

- Quarterly Report (D003) submissions to stay on top of data
- Revise Data Quality Standards for implementation
- Data Quality is a journey, not a destination!

Table/Report Information

This tab displays only clients with errors in the Date of Birth (DOB) or Relationship to Head of Household (Relate HoH) elements. If a client has a DOB or Relate HoH error, the report can't properly count them in other areas. IMPORTANT: Fixing these errors will have an impact on the errors that appear in later tabs of the report. Re-run the report after fixing the errors on this tab.

Key

Data Element	Indicator	Reason
HoH	Null	This household has no client marked Head of Household in the Relationship to Head of Household data element.
DOB Type	Null	This client is missing information in the Date of Birth Type data element.
DOB Error	Error	There are inconsistencies between the value recorded for DOB and the value recorded for Date of Birth type for this client.
Relate HoH	Self	This client is marked "Self" in the Relationship to Head of Household data element but is under age 18.

ShelterPoint update

Change will prevent EDA issues (for ES projects using ShelterPoint)

- Currently, when you go to check someone, you see all the Project Start Assessment questions
- On March 1, you'll use the Entry/Exit tab to answer all Project Start questions. Remember, all clients need Project start questions completed!
 1. Check-in your household
 2. Then select the Head of Household to find the Entry/Exit tab!

ShelterPoint update

Currently, ShelterPoint looks like this

Household Members

i To include Household members in this Check In, click the box beside each name. Then assign each member a unit. If no unit is available, an Overflow unit will be used. Note: Only members from the same Household may be selected.

(125413) Single Parent

(4) Solo, Han Assign Unit
