Data Quality Reports

Data Quality Reports

We want more counties to locate and report people experiencing unsheltered homelessness.

Last year 27 counties reported 0 unsheltered people - that's 53 counties who counted people experiencing unsheltered homelessness.

This year so far we're up to 57 counties who have an unsheltered PIT count greater than 0!

Data Quality Reports

Our Data Quality reports each week look at the following issues:

- Missing Veteran Status, Gender, DOB
- Missing Relationship to Head of Household
- Missing NCCounty
- Head of Household under 16 years old / over 80 years old
- Current Living Situation date

For households with CLS "not meant for habitation" close to 1/31.

We have focused on NCCounty and the most frequent data quality issues for each region. We will be adding a flag for missing Race/Ethnicity.

Data Quality Reports

Data quality issues as of today:

DQ_flag_type	count
<i><chr></i>	<i><int></i>
missing Date of Birth or DOB_quality	543
missing RelationshipToHoh	42
older than 80 years old	2
verify Current Living Situation Date	37
verify NCCounty	98
verify gender	491

Each individual client can have multiple data quality flags so this is not individual clients

Do you have questions about data quality, how to correct issues?
