NC HMIS User License Allocation Policy

Background

The NC Balance of State CoC first adopted a license allocation policy for the NC Homeless Management Information System (HMIS) in February 2014. The CoC updated this policy in May 2014. In May 2015, the NC HMIS Governance Committee, representing the state's 12 CoCs (including the Balance of State), changed the lead agency for the statewide HMIS to the Michigan Coalition Against Homelessness (MCAH). After this change occurred, the BoS CoC reviewed its license allocation policy and updated HMIS participating agencies on the process for distributing licenses and the expectations for HMIS end users.

End User Licenses

To encourage broad use of the statewide HMIS and increase HMIS bed coverage across the 79 counties in the Balance of State, the CoC will offer free licenses to end users under the current contracting period with MCAH through June 30, 2017.

HMIS end users must abide by the BoS HMIS policy, which requires those with a license to:

- Log into the system at least once every 60 days
- Maintain high data quality
- Be responsive to outreach from the NCCEH Data Center and MCAH
- Regularly and actively participate in local BoS Regional Committee meetings (another representative from the end user's organization may participate if the end user cannot)
- Enter all HUD required data elements in the NC HMIS
- Complete all required trainings and training updates within one month of request
- Keep username and password confidential and not share license with others

For individuals interested in pursuing licensure, submit the Balance of State CoC HMIS License Request form located on the NCCEH website at <http://bit.ly/1TVGvFI>. Once this form has been received, the NCCEH Data Team will contact the interested individual with next steps.
