# Before Starting the Exhibit 1 Continuum of Care (CoC) Application

HUD strongly encourages ALL applicants to review the following information BEFORE beginning the 2010 Exhibit 1 Continuum of Care (CoC) Application.

Training resources are available online at: www.hudhre.info/esnaps &nbsp- Training modules are available to help complete or update the Exhibit 1 application, including attaching required forms. &nbsp- The HUD HRE Virtual Help Desk is available for submitting technical and policy questions. &nbsp

### Things to Remember

- Review the 2010 Notice of Funding Availability for the Continuum of Care (CoC) Homeless Assistance Program in its entirety for specific application and program requirements. - CoCs that applied in the 2009 competition and selected the bring forward option during CoC Registration must be careful to review each question in the Exhibit 1. Questions may have changed or been removed so the information brought forward may or may not be relevant. Not all questions will have information brought forward. For those questions, you must enter response manually. Be sure to review the application carefully. Verify and update as needed to ensure accuracy. - New CoCs or CoCs that did not apply in 2009 will not have pre-populated information and must complete all Exhibit 1 forms. - There are character limits for the narrative sections of the application and the amounts are listed accordingly. It is recommended that CoCs first write narrative responses in Microsoft Word and then cut and paste into e-snaps.

# 1A. Continuum of Care (CoC) Identification

### **Instructions:**

The fields on this screen are read only and reference the information entered during the CoC Registration process. Updates cannot be made at this time. If the information on this screen is not correct, contact the HUD Virtual Help Desk at www.hudhre.info.

**CoC Name and Number (From CoC** NC-503 - North Carolina Balance of State CoC **Registration):** 

**CoC Lead Agency Name:** NC Department of Health and Human Services

## 1B. Continuum of Care (CoC) Primary Decision-**Making Group**

NC-503

### Instructions:

The following questions are related to the CoC primary decision-making group. The primary responsibility of this group is to manage the overall planning effort for the entire CoC, including, but not limited to:

- Setting agendas for full Continuum of Care meetings
- Project monitoring

- Determining project priorities

- Providing final approval for the CoC application submission.

This body is also responsible for the implementation of the CoC's HMIS, either through direct oversight or through the designation of an HMIS implementing agency. This group may be the CoC Lead Agency or may authorize another entity to be the CoC Lead Agency under its direction.

Name of primary decision-making group: NC Balance of State Steering Committee

**Indicate the frequency of group meetings:** Monthly or more

If less than bi-monthly, please explain (limit 500 characters):

**Indicate the legal status of the group:** Not a legally recognized organization

Specify "other" legal status:

Indicate the percentage of group members 61% that represent the private sector: (e.g., non-profit providers, homeless or formerly homeless persons, advocates and consumer interests)

* Indicate the selection process of gro (select all that apply)	oup n	nembers
Elected:	Χ	
Assigned:		
Volunteer:		
Appointed:		
Other:		

Specify "other" process(es):

Exhibit 1 2010	Page 3	11/16/2010
----------------	--------	------------

Briefly describe the selection process of group members. Description should include why this process was established and how it works (limit 750 characters):

Each regional committee of the NC Balance of State CoC elects a representative to serve on the Steering Committee. This process was established to provide broad geographic representation for the decision-making process.

7	* Indicate	the se	election	process	of g	roup l	eaders	<b>:</b>
(	select all	that a	apply):	-	_	-		

Elected: X
Assigned: Volunteer: Appointed: Other:

## Specify "other" process(es):

If administrative funds were made available to the CoC, would the primary-decision making body, or its designee, have the capacity to be responsible for activities such as applying for HUD funding and serving as a grantee, providing project oversight, and monitoring. Explain (limit 750 characters):

An agency designated by the Steering Committee, at the state level, would be able to be responsible for those activities if the administrative funds provided were sufficient for appropriate staffing and other associated expenses.

Exhibit 1 2010	Page 4	11/16/2010
----------------	--------	------------

# 1C. Continuum of Care (CoC) Committees, Subcommittees and Work Groups

### Instructions:

Provide information on up to five of the CoCs most active CoC-wide planning committees, subcommittees, and workgroups. CoCs should only include information on those groups that are directly involved in CoC-wide planning activities such as project review and selection, discharge planning, disaster planning, completion of the Exhibit 1 application, conducting the point-in-time count, and 10-year plan coordination. For each group, briefly describe the role and how frequently the group meets. If one of more of the groups meet less than quarterly, please explain.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

## **Committees and Frequency**

Name of Group	Role of Group (limit 750 characters)	Meeting Frequency
NC Balance of State Steering Committee	Coordinates statewide activities on homelessness across all agencies and jurisdictions in the Balance of State CoC area (80 out of 100 counties in the state)	Monthly or more
Permanent Housing Committee	Reviews APR data to improve Permanent Housing performance	quarterly (once each quarter)
Transitional Housing Committee	Reviews APR data to improve Transitional Housing performance	quarterly (once each quarter)
Review Criteria Committee	Determines criteria for reviewing project applications	semi-annually (twice a year)
Project Review and Ranking Committee	Reviews and ranks project applications	semi-annually (twice a year)

# If any group meets less than quarterly, please explain (limit 750 characters):

The Review Criteria Committee and the Project Review and Ranking Committee meet as often as needed in preparation of, during, and after the CoC application process.

### 1E. Continuum of Care (CoC) Project Review and **Selection Process**

#### Instructions:

The CoC solicitation of projects and the project selection process should be conducted in a fair and impartial manner. For each of the following items, indicate all of the methods and processes the CoC used in the past year to assess the performance, effectiveness, and quality of all requested new and renewal project(s).

In addition, indicate if any written complaints have been received by the CoC regarding any CoC matter in the last 12 months, and how those matters were addressed and/or resolved.

(select all that apply)

**Open Solicitation Methods:** f. Announcements at Other Meetings, e. Announcements at CoC Meetings, c. Responsive to Public Inquiries, b. Letters/Emails to CoC Membership, d. Outreach to Faith-Based Groups

**Rating and Performance Assessment** Measure(s): (select all that apply)

b. Review CoC Monitoring Findings, g. Site Visit(s), k. Assess Cost Effectiveness, q. Review All Leveraging Letters (to ensure that they meet HUD requirements), c. Review HUD Monitoring Findings, r. Review HMIS participation status, d. Review Independent Audit, j. Assess Spending (fast or slow), p. Review Match, i. Evaluate Project Readiness, e. Review HUD APR for Performance Results, n. Evaluate Project Presentation, o. Review CoC Membership Involvement, f. Review Unexecuted Grants, a. CoC Rating & Review Committee Exists, m. Assess Provider Organization Capacity, I. Assess Provider Organization Experience

Voting/Decision-Making Method(s): (select all that apply)

c. All CoC Members Present Can Vote, a. Unbiased Panel/Review Commitee, e. Consensus (general agreement), b. Consumer Representative Has a Vote, f. Voting Members

Abstain if Conflict of Interest

Were there any written complaints received No the CoC regarding any matter in the last 12 months?

> If yes, briefly describe complaint and how it was resolved (limit 750 characters):

Exhibit 1 2010	Page 41	11/16/2010
----------------	---------	------------

### 1F. Continuum of Care (CoC) Housing Inventory Count--Change in Beds Available

For each housing type, indicate if there was a change (increase or reduction) in the total number of beds counted in the 2010 Housing Inventory Count (HIC) as compared to the 2009 HIC. If there was a change, please describe the reasons in the space provided for each housing type. If the housing type does not exist in your CoC, please select ¿Not Applicable and indicate that in the text box for that housing type.

**Emergency Shelter:** Yes

Briefly describe the reason(s) for the change in Emergency Shelter beds, if applicable (limit 750 characters):

The CoC's emergency shelter bed inventory decreased for several reasons. Three shelters lost local funding sources and closed, and several seasonal shelters that existed in 2009 did not open in 2010. Numerous other shelters either decreased the number of beds they provide or repurposed emergency shelter beds for transitional housing programs.

Safe Haven: Not Applicable

Briefly describe the reason(s) for the change in Safe Haven beds, if applicable (limit 750 characters):

There are no Safe Haven beds in the 2010 inventory, and there were none last year.

Transitional Housing: Yes

Briefly describe the reason(s) for the change in Transitional Housing beds, if applicable (limit 750 characters):

As described above, several emergency shelters repurposed beds for transitional housing programs, causing an increase in the transitional housing inventory. In addition, five new TH programs were opened by faith-based or nonprofit agencies, and several existing TH programs added beds to their inventory.

Permanent Housing: Yes

Briefly describe the reason(s) for the change in Permanent Housing beds, if applicable (limit 750 characters):

Exhibit 1 2010	Page 42	11/16/2010
=/	g <u>_</u>	,,

The permanent housing bed inventory increased because new units of permanent housing were developed, including beds for chronically homeless persons.

CoC certifies that all beds for homeless yes persons were included in the Housing Inventory Count (HIC) as reported on the Homelessness Data Exchange (HDX), regardless of HMIS participation and HUD funding:

Exhibit 1 2010	Page 43	11/16/2010
----------------	---------	------------

### 1G. Continuum of Care (CoC) Housing Inventory **Count - Data Sources and Methods**

#### Instructions:

Complete the following items based on data collection methods and reporting for the Housing Inventory Count (HIC), including Unmet need determination. The information should be based on a survey conducted in a 24-hour period during the last ten days of January 2010. CoCs were expected to report HIC data on the Homelessness Data Exchange (HDX).

**Indicate the type of data sources or methods** HMIS plus housing inventory survey

to complete the housing inventory count: (select all that apply)

accuracy of the data collected and included in the housing inventory count: (select all that apply)

**Indicate the steps taken to ensure the** Follow-up, Instructions, Updated prior housing inventory information, Confirmation, Training, **HMIS** 

Must specify other:

Indicate the type of data or method(s) used to HUD unmet need formula, Provider opinion (select all that apply):

determine unmet need: through discussion or survey forms

Specify "other" data types:

If more than one method was selected, describe how these methods were used together (limit 750 characters):

The HUD unmet need formula was used to determine the basic amount of unmet need. The final unmet need was adjusted using provider opinion to ensure that it captures the actual need in our regions. The unmet need for emergency shelter and transitional housing reflects the fact that a number of geographic areas of the state still do not have any kind of shelter at all, while in other areas, the available shelter and transitional housing may be designated for specific needs (many for domestic violence). Permanent housing is a need in all geographic areas.

### 2A. Homeless Management Information System (HMIS) Implementation

#### Intructions:

All CoCs are expected to have a functioning Homeless Management Information System (HMIS). An HMIS is a computerized data collection application that facilitates the collection of information on homeless individuals and families using residential or other homeless services and stores that data in an electronic format. CoCs should complete this section in conjunction with the lead agency responsible for the HMIS. All information should reflect the status of HMIS implementation as of the date of application submission.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

**Select the HMIS implementation coverage** Regional (multiple CoCs)

Select the CoC(s) covered by the HMIS:

(select all that apply)

NC-507 - Raleigh/Wake County CoC, NC-509 -Gastonia/Cleveland, Gaston, Lincoln Counties CoC, NC-513 - Chapel Hill/Orange County CoC, NC-504 - Greensboro/High Point CoC, NC-501 -Asheville/Buncombe County CoC, NC-502 -Durham City & County CoC, NC-506 -

Wilmington/Brunswick, New Hanover, Pender Counties CoC, NC-511 - Fayetteville/Cumberland

County CoC, NC-508 - Anson, Moore,

Montgomery, Richmond Counties CoC, NC-516 -Northwest North Carolina CoC, NC-503 - North

Carolina Balance of State CoC, NC-500 -Winston Salem/Forsyth County CoC

No Is the HMIS Lead Agency the same as the **CoC Lead Agency?** 

Does the CoC Lead Agency have a written Yes agreement with the HMIS Lead Agency?

Has the CoC selected an HMIS software Yes product?

If "No" select reason:

If "Yes" list the name of the product: ServicePoint

What is the name of the HMIS software Bowman Systems, Inc.

company?

Does the CoC plan to change HMIS software No within the next 18 months?

Indicate the date on which HMIS data entry 05/01/2006 started (or will start): (format mm/dd/yyyy)

> **Exhibit 1 2010** Page 45 11/16/2010

> impacting the HMIS implementation: (select all the apply):

Indicate the challenges and barriers Inadequate staffing, Inadequate bed coverage for AHAR participation, Poor data quality, No or low participation by non-HUD funded providers. Inadequate resources

If CoC indicated that there are no challenges or barriers impacting HMIS implementation, briefly describe either why CoC has no challenges or how all barriers have been overcome (limit 1000 characters).

If CoC identified one or more challenges or barriers impacting HMIS implementation, briefly describe how the CoC plans to overcome them (limit 1000 characters).

We are working to improve data quality & bed coverage. We are improving data quality through standardized & customized reporting, end user certification & refresher training, and focused technical assistance. The Carolina Homeless Information Network (CHIN) produces a monthly data quality report. In addition to standard reports and support, CHIN has developed a Healthy Indicators tool. We struggle most with coverage in our small, rural programs. Most of the agencies who do not receive McKinney-Vento funding are small, volunteer-run organizations that do not have the resources, staff, or capacity to enter data into our HMIS. Without the requirement to participate for funding, these agencies are resistant to put financial or volunteer hours into HMIS. We will continue to educate these facilities about statewide and program benefits of HMIS. We are also exploring regional staff to assist with data entry for these agencies in order to compensate for inadequate resources.

-------------------	-------------------

### 2D. Homeless Management Information System (HMIS) Bed Coverage

#### Instructions:

HMIS bed coverage measures the level of provider participation in a CoC¿s HMIS. Participation in HMIS is defined as the collection and reporting of client level data either through direct data entry into the HMIS or into an analytical database that includes HMIS data on an at least annual basis.

HMIS bed coverage is calculated by dividing the total number of year-round beds located in HMIS-participating programs by the total number of year-round beds in the Continuum of Care (CoC), after excluding beds in domestic violence (DV) programs. HMIS bed coverage rates must be calculated separately for emergency shelters, transitional housing, and permanent supportive housing.

The 2005 Violence Against Women Act (VAWA) Reauthorization bill restricts domestic violence provider participation in HMIS unless and until HUD completes a public notice and comment process. Until the notice and comment process is completed, HUD does not require nor expect domestic violence providers to participate in HMIS. HMIS bed coverage rates are calculated excluding domestic violence provider beds from the universe of potential beds.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

Indicate the HMIS bed coverage rate (%) for each housing type within the CoC. If a particular housing type does not exist anywhere within the CoC, select "Housing type does not exist in CoC" from the drop-down menu.

* Emergency Shelter (ES) Beds	65-75%
* Safe Haven (SH) Beds	Housing type does not exist in CoC
* Transitional Housing (TH) Beds	51-64%
* Permanent Housing (PH) Beds	86%+

How often does the CoC review or assess At least Quarterly its HMIS bed coverage?

If bed coverage is 0-64%, describe the CoC's plan to increase this percentage during the next 12 months:

Exhibit 1 2010	Page 49	11/16/2010
----------------	---------	------------

The CoC's Carolina Homeless Information Network (CHIN) staff are working with individual regional committees and agencies to provide training and specific technical assistance and support to assist agencies in entering their beds into the inventory. The NC Balance of State CoC Steering Committee has increased the scoring incentives for HMIS participation for project applicants in CoC competitions. The NC BOS Permanent Housing and Transitional Housing Committees review and will continue to review progress of existing grantees closely in their quarterly performance reviews. The CoC is also forming an HMIS Review Committee to review HMIS data quality, identify agencies in need of technical assistance, and engage agencies that are not currently using HMIS. The chair of this committee has been identified, and the CoC plans for meetings to begin early in 2011.

Our Transitional Housing Bed Coverage is low largely due to the number of small, unfunded programs that are in our region. The 442 beds that are not covered by HMIS are located in 30 agencies that are not funded by McKinney-Vento. Of these 30 agencies, 26 (87%) have 20 or fewer beds, including 14 (47%) with 10 or fewer beds. Many of them are volunteer run and do not have staff or other necessary resources or capacity to participate in HMIS. Without the requirement to participate in HMIS for funding, these agencies are resistant to put financial or volunteer hours into a computer system that tracks information that many of them are not tracking for their programs. We plan to continue to educate these facilities about the statewide benefits of HMIS and how HMIS data can impact the households they are assisting. We will also explore strategies such as regional staff who can assist with data entry for these agencies in order to effectively compensate for resources that they do not have.

Exhibit 1 2010	Page 50	11/16/2010
EXHIBIT 1 2010	1 490 00	11/10/2010

## 2E. Homeless Management Information System (HMIS) Data Quality

#### Instructions:

HMIS data quality refers to the extent that data recorded in an HMIS accurately reflects the extent of homelessness and homeless services in a local area. In order for the HMIS to present accurate and consistent information on homelessness, it is critical that an HMIS have the best possible representation of reality as it relates to homeless people and the programs that serve them. Specifically, it should be a CoCs goal to record the most accurate, consistent and timely information in order to draw reasonable conclusions about the extent of homelessness and the impact of homeless services in its local area. Answer the questions below related to the steps the CoC takes to ensure the quality of its data. In addition, CoCs will indicate their participation in the Annual Homelessness Assessment Report (AHAR) for 2009 and 2010 as well as whether or not they plan to contribute data to the Homelessness Pulse project in 2010.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

### Indicate the percentage of unduplicated client records with null or missing values on a day during the last ten days of January 2010.

Universal Data Element	Records with no values (%)	Records where value is refused or unknown (%)
* Social Security Number	2%	9%
* Date of Birth	2%	0%
* Ethnicity	0%	0%
* Race	0%	0%
* Gender	1%	0%
* Veteran Status	3%	6%
* Disabling Condition	10%	16%
* Residence Prior to Program Entry	3%	7%
* Zip Code of Last Permanent Address	4%	16%
* Name	0%	0%

How frequently does the CoC review the At least Monthly quality of client level data?

How frequently does the CoC review At least Monthly the quality of program level data?

Describe the process, extent of assistance, and tools used to improve data quality for agencies participating in the HMIS (limit 750 characters):

Exhibit 1 2010	Page 51	11/16/2010
----------------	---------	------------

> CHIN uses comparative reporting to assist agencies as they improve their client and program data. The primary report is the monthly Data Quality Report that provides agencies and our CoC with an overview of data completeness, utilization rates, and inventory. Additionally, agencies may request a report at any time during the month. Standardized ServicePoint reports are available continuously including: APR data, clients served, and clients not served. For agencies that need improvement, on-site and on-line data entry technical assistance and training are available at no charge to agencies. In extreme cases, contract data entry assistance is available for agencies to help them catch up on data entry.

Describe the existing policies and procedures used to ensure that valid program entry and exit dates are recorded in the HMIS (limit 750 characters):

A commitment to accurate data entry, including program entry and exit dates, begins when agencies sign their Agency Participation Agreement. In this contract, agencies agree to adhere to CHIN's Standard Operating Policies which explicitly cover all HUD required data elements. Agencies and end users are reminded of the policies again during certification training. Program entry and exit dates are covered specifically in all training materials.

Program enrollment figures are included as elements on CHIN's monthly Data Quality Reports. CHIN staff can generate a report for participating agencies that lists all clients with their program entry and exit dates and indications of fields that remain incomplete.

Indicate which reports the CoC or subset of 2009 AHAR, 2009 AHAR Supplemental Report the CoC submitted usable data: on Homeless Veterans (Select all that apply)

the CoC plans to submit usable data: (Select all that apply)

Indicate which reports the CoC or subset of 2010 AHAR Supplemental Report on Homeless Veterans, 2010 AHAR

Does your CoC plan to contribute data to the Homelessness Pulse project in 2010?

Exhibit 1 2010 Page 52 11/16/2010

### 2F. Homeless Management Information System (HMIS) Data Usage

#### Instructions:

CoCs can use HMIS data for a variety of applications. These include, but are not limited to, using HMIS data to understand the characteristics and service needs of homeless people, to analyze how homeless people use services, and to evaluate program effectiveness and outcomes.

In this section, CoCs will indicate the frequency in which it engages in the following.

- Integrating or warehousing data to generate unduplicated counts
- Point-in-time count of sheltered persons
- Point-in-time count of unsheltered persons
- Measuring the performance of participating housing and service providers
- Using data for program management
- Integration of HMIS data with data from mainstream resources

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

Indicate the frequency in which the CoC uses HMIS data for each of the following:

Integrating or warehousing data to generate At least Semi-annually

unduplicated counts:

Point-in-time count of sheltered persons: At least Semi-annually Point-in-time count of unsheltered persons: At least Semi-annually Measuring the performance of participating At least Semi-annually

Measuring the performance of participating housing and service providers:

**Using data for program management:** At least Annually

Integration of HMIS data with data from Never

mainstream resources:

Exhibit 1 2010 Page 53	11/16/2010
------------------------	------------

### 2G. Homeless Management Information System (HMIS) Data and Technical Standards

#### Instructions:

In order to enable communities across the country to collect homeless services data consistent with a baseline set of privacy and security protections, HUD has published HMIS Data and Technical Standards. The standards ensure that every HMIS captures the information necessary to fulfill HUD reporting requirements while protecting the privacy and informational security of all homeless individuals.

Each CoC is responsible for ensuring compliance with the HMIS Data and Technical Standards. CoCs may do this by completing compliance assessments on a regular basis and through the development of an HMIS Policy and Procedures manual. In the questions below, CoCs are asked to indicate the frequency in which they complete compliance assessment.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

### For each of the following HMIS privacy and security standards, indicate the frequency in which the CoC and/or HMIS Lead Agency complete a compliance assessment:

* Unique user name and password	At least Annually
* Secure location for equipment	At least Annually
* Locking screen savers	At least Annually
* Virus protection with auto update	At least Annually
* Individual or network firewalls	At least Annually
* Restrictions on access to HMIS via public forums	At least Annually
* Compliance with HMIS Policy and Procedures manual	At least Annually
* Validation of off-site storage of HMIS data	At least Annually

How often does the CoC Lead Agency assess compliance with the HMIS Data and Technical Standards?

At least Annually

How often does the CoC Lead Agency aggregate data to a central location (HMIS database or analytical database)?

Never

Does the CoC have an HMIS Policy and Yes Procedures manual?

If 'Yes' indicate date of last review 10/11/2010 or update by CoC:

If 'No' indicate when development of manual will be completed (mm/dd/yyyy):

Exhibit 1 2010	Page 54	11/16/2010
----------------	---------	------------

# 2H. Homeless Management Information System (HMIS) Training

### **Instructions:**

Providing regular training opportunities for homeless assistance providers that are participating in a local HMIS is a way that CoCs can ensure compliance with the HMIS Data and Technical Standards. In the section below, CoCs will indicate how frequently they provide certain types of training to HMIS participating providers.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

### Indicate the frequency in which the CoC or HMIS Lead Agency offers each of the following training activities:

* Privacy/Ethics training	At least Monthly
* Data Security training	At least Monthly
* Data Quality training	At least Monthly
* Using Data Locally	At least Quarterly
* Using HMIS data for assessing program performance	At least Semi-annually
* Basic computer skills training	At least Monthly
* HMIS software training	At least Monthly

Exhibit 1 2010	Page 55	11/16/2010
----------------	---------	------------

# 2I. Continuum of Care (CoC) Sheltered Homeless Population & Subpopulation: Point-In-Time (PIT) Count

#### Instructions:

Although CoCs are only required to conduct a one-day point-in-time count every two years, HUD strongly encourages CoCs to conduct a point-in-time count annually, if resources allow. The purpose of the point-in-time count is to further understand the number and characteristics of people sleeping in shelters, on the streets, or in other locations not meant for human habitation.

Below, CoCs will indicate how frequently they will conduct a point-in-time count and what percentage of their homeless service providers participate. CoCs are also asked to describe whether or not there were differences between the most recent point-in-time count and the one prior. CoCs should indicate in the narrative which years they are comparing.

How frequently does the CoC conduct annually (every year) a point-in-time count?

Enter the date in which the CoC plans 01/26/2011 to conduct its next point-in-time count: (mm/dd/yyyy)

Indicate the percentage of homeless service providers supplying population and subpopulation data for the point-in-time count that was collected via survey, interview, and/or HMIS.

Emergency Shelter: 100%
Transitional Housing: 90-99%

Comparing the most recent point-in-time count to the previous point-in-time count, describe any factors that may have resulted in an increase, decrease, or no change in both the sheltered and unsheltered population counts (limit 1500 characters).

The NC BoS CoC saw an increase in sheltered homeless persons, but a decrease in unsheltered homeless persons. The decrease in the unsheltered population can be partly attributed to strengthened outreach programs bringing more people into shelter. The increase in sheltered homeless persons is partly a reflection of more unsheltered people entering facilities, but it is also attributable to the continuing economic recession. 42% of the counties in the NC BoS have unemployment rates of 10% or higher; 25% have rates of 11% or higher; and 9% have rates of 12% or higher. Providers report that more people are entering shelters or transitional housing after having lost their jobs and exhausted their resources, and the lack of job opportunities prevents them from regaining self-sufficiency and exiting the system, resulting in longer stays and higher occupancy rates.

Exhibit 1 2010	Page 56	11/16/2010
EXHIDIL LZUTU	raue po	1 1/10/2010

# 2J. Continuum of Care (CoC) Sheltered Homeless Population & Subpopulations: Methods

#### Instructions:

Accuracy of the data reported in point-in-time counts is vital. Data produced from these counts must be based on reliable methods and not on ¿guesstimates.¿ CoCs may use one or more methods to count sheltered homeless persons. This form asks CoCs to identify and describe which method(s) they use to conduct their point-in-time counts. The description should demonstrate how the method(s) was used to produce an accurate count.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

Indicate the method(s) used to count sheltered homeless persons during the last point-in-time count: (Select all that apply):

<b>Survey Providers:</b>	Χ
HMIS:	Χ
Extrapolation:	
Other:	

### If Other, specify:

Describe the methods used by the CoC, as indicated above, to collect data on the sheltered homeless population during the most recent point-in-time count. Response should indicate how the method(s) selected above were used in order to produce accurate data (limit 1500 characters).

The NC Interagency Council for Coordinating Homeless Programs (NC ICCHP) determined the date for the statewide point in time count (January 27, 2010). The NC Coalition to End Homelessness (NCCEH) staff provided training and technical assistance to agencies in the CoC to prepare them for the count and provided follow-up. The HUD Guide for Counting Sheltered People was utilized, as well as assistance from HUD TA Providers. Agencies used HMIS, other administrative records, and client surveys to determine the number and subpopulation type of clients sheltered on January 27, 2010. Many agencies were able to use HMIS to obtain their data or to verify their counts. NCCEH collected PIT surveys that included the numbers of sheltered homeless and Housing Inventory information for all participating agencies in the Balance of State CoC. BoS CoC leadership then compared the manual PIT results to the HMIS PIT report to ensure data quality and used this information to strengthen our HMIS use.

Exhibit 1 2010	Page 57	11/16/2010
EXHIBIT 1 2010	raye 31	11/10/2010

## 2K. Continuum of Care (CoC) Sheltered Homeless Population and Subpopulation: Data Collection

#### Instructions:

CoCs are required to produce data on seven subpopulations. These subpopulations are the chronically homeless, severely mentally ill, chronic substance abuse, veterans, persons with HIV/AIDS, victims of domestic violence, and unaccompanied youth (under 18). Subpopulation is required for sheltered homeless persons and optional for unsheltered homeless persons, with the exception of chronically homeless persons. Sheltered chronically homeless people are those living in emergency shelters only.

In the 2010 CoC NOFA, the definition of Chronically Homeless Person has been expanded to include families with at least one adult member who has a disabling condition. The family must meet all the other standards for chronic homelessness in Section 4.d. of the 2010 NOFA, Definitions and Concepts. Because the definition of chronically homeless at the time of either the 2009 or 2010 point-in-time count was still limited to individuals, CoCs are only reporting on that data on this section of the Exhibit 1.

CoCs may use a variety of methods to collect subpopulation information on sheltered homeless persons and may employ more than one in order to produce the most accurate data. This form asks CoCs to identify and describe which method(s) they use to gather subpopulation information for sheltered populations during the most recent point-in-time count. The description should demonstrate how the method(s) was used to produce an accurate count.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

Indicate the method(s) used to gather and calculate subpopulation data on sheltered homeless persons (select all that apply):

HMIS	Х
HMIS plus extrapolation:	
Sample of PIT interviews plus extrapolation:	
Sample strategy:	
Provider expertise:	
Interviews:	Х
Non-HMIS client level information:	Χ
None:	
Other:	Х
If Other, specify:	

Administrative records were used to report clients' subpopulation information.

Exhibit 1 2010	Page 58	11/16/2010
----------------	---------	------------

Describe the methods used by the CoC, as indicated above, to collect data on the sheltered homeless subpopulations during the most recent point-in-time count. Response should indicate how the method(s) selected above were used in order to produce accurate data on all of the sheltered subpopulations (Limit 1500 characters).

The NC Interagency Council for Coordinating Homeless Programs (NC ICCHP) determined the date for the statewide point in time count (January 27, 2010). The NC Coalition to End Homelessness (NCCEH) staff provided training and technical assistance to agencies in the CoC to prepare them for the count and provided follow-up. The HUD Guide for Counting Sheltered People was utilized, as well as assistance from HUD TA Providers. Agencies used HMIS, other administrative records, and client surveys to determine the number and subpopulation type of clients sheltered on January 27, 2010. The client demographic & need survey was designed with HUD TA provider assistance. Many agencies were able to use HMIS to obtain or verify their subpopulation data. NCCEH collected PIT forms with subpopulation data from all participating agencies in the Balance of State CoC.

Exhibit 1 2010 Page 59 11/16/2010	EXNIDIT 1 2010	Page 59	
-----------------------------------	----------------	---------	--

# 2L. Continuum of Care (CoC) Sheltered Homeless Population and Subpopulation: Data Quality

#### Instructions:

The data collected during point-in-time counts is vital for both CoCs and HUD. Communities need accurate data to determine the size and scope of homelessness at the local level, plan services and programs to appropriately address local needs, and measure progress in addressing homelessness. HUD needs accurate data to understand the extent and nature of homelessness throughout the country, provide Congress and OMB with information on services provided, gaps in service, and performance, and to inform funding decisions. Therefore, it is vital that the quality of data reported is high. CoCs may undertake one or more actions to improve the quality of the sheltered population data. This form asks CoCs to identify the steps they take to ensure data quality.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

Indicate the steps taken by the CoC to ensure the quality of the data collected for the sheltered population count: (select all that apply)

Instructions:	Χ
Training:	Χ
Remind/Follow-up	Χ
HMIS:	Χ
Non-HMIS de-duplication techniques:	Χ
None:	
Other:	

### If Other, specify:

If selected, describe the non-HMIS de-duplication techniques used by the CoC to ensure the data quality of the sheltered persons count (limit 1000 characters).

Only agencies that have beds were asked to report for the sheltered count. During service-based counts, if surveyors interviewed homeless households that were sheltered on the night of the count, the household was only reported by the agency that provided shelter.

Exhibit 1 2010	Page 60	11/16/2010
----------------	---------	------------

# 2M. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation: Methods

#### Instructions:

Accuracy of the data reported in point-in-time counts is vital. Data produced from these counts must be based on reliable methods and not on ¿guesstimates.¿ CoCs may use one or more methods to count unsheltered homeless persons. This form asks CoCs to identify which method(s) they use to conduct their point-in-time counts.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

Indicate the method(s) used to count (select all that apply)	unsh	eltered homeless persons:
Public places count:	Χ	
Public places count with interviews:	Χ	
Service-based count:	Χ	

HMIS: Other:

If Other, specify:

Exhibit 1 2010	Page 61	11/16/2010

# 2N. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation - Level of Coverage

#### Instructions:

CoCs may employ numerous approaches when counting unsheltered homeless people. CoCs first need to determine where they will look to count this population. They may canvass an entire area or only those locations where homeless persons are known to sleep for example. This form asks CoCs to indicate the level of coverage they incorporate when conducting their unsheltered count.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

unsheltered homeless persons (level of coverage) that were counted in the last point-in-time count:

If Other, specify:

Indicate where the CoC located the A Combination of Locations

# 20. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation - Data Quality

#### Instructions:

The data collected during point-in-time counts is vital for both CoCs and HUD. Communities need accurate data to determine the size and scope of homelessness at the local level, plan services and programs to appropriately address local needs, and measure progress in addressing homelessness. HUD needs accurate data to understand the extent and nature of homelessness throughout the country, provide Congress and OMB with information on services provided, gaps in service, and performance, and to inform funding decisions. Therefore, it is vital that the quality of data reported is high. CoCs may undertake one or more actions to improve the quality of the unsheltered population data. This form asks CoCs to identify the steps they take to ensure data quality.

All CoCs should be engaging in activities to reduce the occurrence of counting unsheltered persons more than once during a point-in-time count. These strategies are knows as deduplication techniques. De-duplication techniques should always be implemented when the point-in-time count extends beyond one night or takes place during the day at service locations used by homeless people that may or may not use shelters. On this form, CoCs are asked to describe their de-duplication techniques. Finally, CoCs are asked to describe their outreach efforts to identify and engage homeless individuals and families.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

Indicate the steps taken by the CoC to ensure the quality of the data collected for the unsheltered population count: (select all that apply)

Training:	Χ
HMIS:	
De-duplication techniques:	Χ
Other:	

#### If Other, specify:

Describe the techniques used by the CoC to reduce the occurrence of counting unsheltered homeless persons more than once during the most recent point-in-time count (limit 1500 characters):

Training and technical assistance was provided to CoC agencies by the NC Coalition to End Homelessness. HUD's Guide to Counting Unsheltered People and assistance from HUD's TA Providers were used. Persons conducting the count were careful to define specific geographic areas in which to count to avoid multiple counts in a common area. Then, homeless persons being interviewed were specifically asked if they had previously been interviewed, and if so, were not re-counted. Local regions printed their surveys on a bright colored piece of paper to be easily recognizable; homeless persons were asked if they'd completed the survey before. Surveys also included the first two letters of the person's first and last names, birthday, and gender to assist staff and volunteers with de-duplication when compiling their region's total count.

Exhibit 1 2010	Page 63	11/16/2010
----------------	---------	------------

### Describe the CoCs efforts to reduce the number of unsheltered homeless households with dependent children. Discussion should include the CoCs outreach plan (limit 1500 characters):

The NC Balance of State CoC works through agencies, schools, community partnerships, and volunteers to engage and assist unsheltered homeless households with dependent children. The CoC includes state and local public school system representatives, and agencies providing housing and services partner with their school systems to identify and assist unsheltered households with dependent children. During the Point-in Time-Count, persons conducting interviews provide outreach and referrals. In addition, many agencies and faith-based groups provide ongoing outreach efforts to engage and assist unsheltered households with dependent children. Once households are being assisted, agencies provide case management, counseling, and advocacy either directly or through partner agencies (including the school systems) to prevent a return to homelessness. As of October 2009, HPRP is now being used to target and assist these households.

### Describe the CoCs efforts to identify and engage persons that routinely sleep on the streets or other places not meant for human habitation (limit 1500 characters):

The NC Balance of State CoC has numerous agencies and faith-based groups that provide street outreach on an ongoing basis to identify and engage unsheltered persons. These programs include PATH teams, ACTT teams, local DSS branches, and outreach teams from rescue missions, shelters, and nonprofit agencies. In addition, a strong outreach effort is undertaken in partnership with law enforcement agencies during the Point-in-Time Count, in which persons performing the count seek out and attempt to engage unsheltered persons.

Exhibit 1 2010 Page 64 11/16/2010

### 3A. Continuum of Care (CoC) Strategic Planning Objectives

### Objective 1: Create new permanent housing beds for chronically homeless persons.

#### Instructions:

Ending chronic homelessness continues to be a HUD priority. CoCs can do this by creating new permanent housing beds that are specifically designated for this population. In the 2010 NOFA, a chronically homeless person is defined as an unaccompanied homeless individual with a disabling condition or a family with at least one adult member who has a disabling condition who has either been continuously homeless for at least a year OR has had at least four episodes of homelessness in the past three (3) years.

On this section, CoCs are to describe their short-term and long-term plans for creating new permanent housing beds for chronically homeless persons that meet the definition in the 2010 CoC NOFA. In addition, CoCs will indicate the current number of permanent housing beds designated for chronically homeless persons. This number should match the number of beds reported in the 2010 Housing Inventory Count (HIC) and entered onto the Homeless Data Exchange (HDX). CoCs will then enter number of permanent housing beds they expect to have in place in 12-months, 5-years, and 10-years. These future estimates should be based on the definition of chronically homeless in the 2010 CoC NOFA.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

### Describe the CoCs short-term (12-month) plan to create new permanent housing beds for persons that meet HUD's definition of chronically homeless (limit 1000 characters).

Our CoC is actively applying for new funding to create additional permanent beds for the chronically homeless; we received funding for 18 new CH beds in the 2009 competition, and are proposing funding for new CH beds in this application. Member agencies are also actively seeking state and local funding as well as coordinating with NSP initiatives to maximize opportunities to create new beds or identify existing beds that could be repurposed to serve the chronically homeless. CoC leadership will provide technical assistance and training to all BoS communities, guiding them through opportunities to create or repurpose beds to serve the chronically homeless including setting Housing Authority preferences. HPRP providers are being trained to partner with Housing Authorities to secure long-term rental assistance for this higher-need population, while also utilizing HPRP assistance to prevent homelessness or rapidly re-house households before they are homeless for a long period of time.

Describe the CoCs long-term (10-year) plan to create new permanent housing beds for persons that meet HUD's definition of chronically homeless (limit 1000 characters).

Exhibit 1 2010	Page 65	11/16/2010
EXHIBIT 1 2010	i age oo	11/10/2010

We will continue to seek federal, state, and local funding to create new beds, and will work actively with landlords to identify existing beds that can be repurposed to serve CH persons. Our Governor's Office works with us through the NC Interagency Council for Coordinating Homeless Programs to implement collaboration and policies aimed at ending homelessness in our state, and the state's Consolidated Plan provides for development of additional permanent supportive housing using HOME & NC Housing Trust Fund funding to increase permanent housing. We will continue to redesign our system with the assistance of HPRP dollars to prevent households from becoming homeless and to rapidly re-house households in order to reduce chronic homelessness. In addition to seeking Housing Authority preferences for this population, we will continue & increase the use of SOAR to access SSI/SSDI benefits. These benefits allow chronically homeless persons to access targeted units in our Tax Credit properties.

- How many permanent housing beds do you 81 currently have in place for chronically homeless persons?
- In 12-months, how many permanent housing 91 beds designated for the chronically homeless do you plan to have in place and available for occupancy?
- In 5-years, how many permanent housing 134 beds designated for the chronically homeless do you plan to have in place and available for occupancy?
- In 10-years, how many permanent housing beds designated for the chronically homeless do you plan to have in place and available for occupancy?

Exhibit 1 2010 Page 66 11/16/2010

### 3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 2: Increase the percentage of participants remaining in CoC funded permanent housing projects for at least six months to 77 percent or more.

#### Instructions:

Increasing the self-sufficiency and stability of permanent housing program participants is an important outcome measurement of HUD's homeless assistance programs. Each SHP-PH and S+C project is expected to report the percentage of participants remaining in permanent housing for more than six months on its Annual Progress Report (APR). CoCs then use this data from all of its permanent housing projects to report on the overall CoC performance on form 4C. Continuum of Care (CoC) Housing Performance.

On this section, CoCs are to describe short-term and long-term plans for increasing the percentage of participants remaining in all of its CoC funded permanent housing projects (SHP-PH or S+C) to at least 77 percent. In addition, CoCs will indicate the current percentage of participants remaining in these projects, as indicated on form 4C, as well as the expected percentage in 12-months, 5-years, and 10-years. CoCs that do not have any CoC funded permanent housing projects (SHP-PH or S+C) for which an APR was required, should indicate this in both of the narratives below and enter ¿0¿ in the first numeric field below.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

Describe the CoCs short-term (12-month) plan to increase the percentage of participants remaining in CoC funded permanent housing projects for at least six months to 77 percent or higher (limit 1000 characters).

We have already reached the threshold, but we will strengthen our performance further by collecting APR data from all existing grantees and convening a Permanent Housing subcommittee at least quarterly to review that data and recommend needed technical support or assistance, sponsored by the NC Council for Coordinating Homeless Programs (NC ICCHP) and provided by the North Carolina Coalition to End Homelessness (NCCEH), to grantees who are not meeting this goal. We will also increase scoring incentives for positive performance for those applying for CoC funding.

Describe the CoCs long-term (10-year) plan to increase the percentage of participants remaining in CoC funded permanent housing for at least six months to 77 percent or higher (limit 1000 characters).

We have exceeded the objective but we will continue to strengthen our performance by collecting APR data from grantees quarterly and convening the Permanent Housing subcommittee quarterly to review that data, and will continue to provide technical assistance, sponsored by the NC ICCHP and provided by NCCEH, to those not yet meeting the goal. We will further strengthen scoring incentives for applicants for CoC funding. Peer mentoring and additional training will also be used to strengthen performance of grantees on this objective.

What is the current percentage of participants	80
remaining in CoC funded permanent housing	
projects for at least six months?	

- In 12-months, what percentage of participants 81 will have remained in CoC funded permanent housing projects for at least six months?
- In 5-years, what percentage of participants 85 will have remained in CoC funded permanent housing projects for at least six months?
- In 10-years, what percentage of participants 87 will have remained in CoC funded permanent housing projects for at least six months?

Exhibit 1 2010	Page 68	11/16/2010
----------------	---------	------------

### 3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 3: Increase the percentage of participants in CoC funded transitional housing that move into permanent housing to 65 percent or more.

#### Instructions:

The ultimate objective of transitional housing is to help homeless families and individuals obtain permanent housing and self-sufficiency. Each SHP-TH project is expected to report the percentage of participants moving to permanent housing on its Annual Progress Report (APR). CoCs then use this data from all of its CoC funded transitional housing projects to report on the overall CoC performance on form 4C. Continuum of Care (CoC) Housing Performance.

On this section, CoCs are to describe short-term and long-term plans for increasing the percentage of transitional housing participants moving from its SHP-TH projects into permanent housing to at least 65 percent. In addition, CoCs will indicate the current percentage of SHP-TH project participants moving into permanent housing as indicated on form 4C, as well as the expected percentage in 12-months, 5-years, and 10-years. CoCs that do not have any CoC funded transitional housing projects (SHP-TH) for which an APR was required, should indicate this in both of the narratives below and enter ¿0¿ in the first numeric field below.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

Describe the CoCs short-term (12-month) plan to increase the percentage of participants in CoC funded transitional housing projects that move to permanent housing to 65 percent or more (limit 1000 characters).

We have already exceeded this threshold, and will continue to strengthen our performance by collecting APR data quarterly from all grantees and convening the Transitional Housing Subcommittee on a quarterly basis to review that data. Technical assistance, sponsored by the NC Interagency Council for Coordinating Homeless Programs (NC ICCHP), and provided by the North Carolina Coalition to End Homelessness (NCCEH), will be given to grantees whose performance does not yet meet our goals. We will also strengthen scoring incentives for higher performance for applicants for CoC funding.

Describe the CoCs long-term (10-year) plan to increase the percentage of participants in CoC funded transitional housing projects that move to permanent housing to 65 percent or more (limit 1000 characters).

We have exceeded the objective but we will continue to strengthen our performance by collecting quarterly APR data from grantees and convening the Transitional Housing Committee quarterly to review that data. Technical assistance sponsored by the NC ICCHP and provided by NCCEH will be provided to grantees who need to increase performance. Scoring incentives will continue to be strengthened for applicants for CoC funding. Peer mentoring and additional training will also be used to strengthen performance on this objective.

Exhibit 1 2010	Page 69	11/16/2010
EXHIBIT 1 ZOTO	1 490 00	11/10/2010

What is the current percentage of participants 75 in CoC funded transitional housing projects will have moved to permanent housing?

In 12-months, what percentage of participants 88 in CoC funded transitional housing projects will have moved to permanent housing?

In 5-years, what percentage of participants in 89 CoC funded transitional housing projects will have moved to permanent housing?

In 10-years, what percentage of participants 90 in CoC funded transitional housing projects will have moved to permanent housing?

Exhibit 1 2010	Page 70	11/16/2010
----------------	---------	------------

### 3A. Continuum of Care (CoC) Strategic Planning Objectives

### Objective 4: Increase percentage of participants in all CoC funded projects that are employed at program exit to 20 percent or more.

#### Instructions:

Employment is a critical step for homeless persons to achieve greater self-sufficiency, which represents an important outcome that is reflected both in participants' lives and the health of the community. Each CoC funded project (excluding HMIS dedicated projects only) is expected to report the percentage of participants employed at exit on its Annual Progress Report (APR). CoCs then use this data from all of its non-HMIS projects to report on the overall CoC performance on form 4D. Continuum of Care (CoC) Enrollment in Mainstream Programs and Employment Information.

On this section, CoCs are to describe short-term and long-term plans for increasing the percentage of all CoC funded program participants that are employed at exit to at least 20 percent. In addition, CoCs will indicate the current percentage of project participants that are employed at exit, as reported on 4D, as well as the expected percentage in 12-months, 5-years, and 10-years. CoCs that do not have any CoC funded non-HMIS projects (SHP-PH, SHP-TH, SHP-SH, SHP-SSO, or S+C TRA/SRA/PRA/SRO) which an APR was required, should indicate this in both of the narratives below and enter ¿0¿ in the first numeric field below.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

## Describe the CoCs short-term (12-month) plan to increase the percentage of participants in all CoC funded projects that are employed at program exit to 20 percent or more (limit 1000 characters).

We have already surpassed the threshold but will continue to strengthen and improve performance by collecting APR data quarterly from all grantees and convening the Permanent Housing and Transitional Housing subcommittees to review that data. Technical assistance, sponsored by the NC Interagency for Coordinating Homeless Programs (NC ICCHP) and provided by the North Carolina Coalition to End Homelessness (NCCEH), will be provided to grantees who need to improve performance. Scoring incentives will be strengthened for applicants for CoC funding.

Describe the CoCs long-term (10-year) plan to increase the percentage of participants in all CoC funded projects that are employed at program exit to 20 percent or more (limit 1000 characters).

We have exceeded the objective but we will continue to strengthen our performance by collecting APR data quarterly for all grantees and convening the Permanent Housing and Transitional Housing Subcommittees to review that data. Technical assistance sponsored by the NC ICCHP and provided by NCCEH will be provided to grantees needing to improve performance. Scoring incentives for CoC applicants will be further strengthened. Peer mentoring and additional training will be provided to increase performance on this objective. We greatly exceeded our CoC goal this year but will continue to set realistic goals in light of current economic conditions.

Exhibit 1 2010	Page 71	11/16/2010

What is the current percentage of participants 41 in all CoC funded projects that are employed at program exit?

- In 12-months, what percentage of participants 28 in all CoC funded projects will be employed at program exit?
- In 5-years, what percentage of participants in 29 all CoC funded projects will be employed at program exit?
- In 10-years, what percentage of participants 30 in all CoC funded projects will be employed at program exit?

Exhibit 1 2010	Page 72	11/16/2010
----------------	---------	------------

## 3A. Continuum of Care (CoC) Strategic Planning Objectives

#### Objective 5: Decrease the number of homeless households with children.

#### Instructions:

Ending homelessness among households with children, particularly for those households living on the streets or other places not meant for human habitation, is an important HUD priority. CoCs can accomplish this goal by creating new beds and/or providing additional supportive services for this population.

On this section, CoCs are to describe short-term and long-term plans for decreasing the number of homeless households with children, particularly those households that are living on the streets or other places not meant for human habitation. In addition, CoCs will indicate the current total number of households with children that was reported on their most recent point-in-time count. CoCs will also enter the total number of homeless households with children that they expect to be able to report in 12-months, 5-years, and 10-years.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

## Describe the CoCs short-term (12-month) plan to decrease the number of homeless households with children. (limit 1000 characters)

We are actively applying for new funding to create additional housing for homeless households with children; we are proposing 57 new units of permanent housing for families in this CoC application. Member agencies are also actively seeking state and local funding as well as coordinating with NSP initiatives to maximize opportunities to create new housing. We are working to identify existing housing that could be repurposed for use by homeless families and are working to create homeless preferences for Housing Authority units and vouchers. HPRP assistance is being utilized in order to prevent or rapidly rehouse households before they are homeless for long periods of time. BoS leadership will continue to provide training to agencies on accessing mainstream and HPRP resources for homeless families.

## Describe the CoCs long-term (10-year) plan to decrease the number of homeless households with children. (limit 1000 characters)

We will continue to seek federal, state, and local funding to create new housing and will work actively with community landlords to identify existing housing units that can be repurposed to serve homeless families. Our Governor's Office works with us proactively through the NC Interagency Council for Coordinating Homeless Programs to implement state-wide strategies to end homelessness and the state Consolidated Plan provides for use of state ESG and other emergency assistance funding to support aggressive prevention efforts and supportive services delivery to reduce the number of homeless families with children. These funds will be increased with the new Emergency Solutions Grant program and continued HPRP activities. We will redesign our system with housing stablization at its core.

Exhibit 1 2010	Page 73	11/16/2010

What is the current total number of homeless households with children, as reported on the most recent point-in-time count?	353
In 12-months, what will be the total number of homeless households with children?	335
In 5-years, what will be the total number of homeless households with children?	310
In 10-years, what will be the total number of homeless households with children?	300

### 3B. Continuum of Care (CoC) Discharge Planning

#### Instructions:

The McKinney-Vento Act requires that State and local governments have policies and protocols in place to ensure that persons being discharged from a publicly- funded institution or system of care are not discharged immediately into homelessness. To the maximum extent practicable, Continuums of Care should demonstrate how they are coordinating with and/or assisting in State or local discharge planning efforts to ensure that discharged persons are not released directly onto the streets, homeless shelters, or into other McKinney-Vento homeless assistance programs (SHP, S+C, or SRO). For each system of care, CoCs are to address the following:

What: Describe the efforts that the CoC has taken to ensure that persons are not routinely discharged into homelessness. For foster care, CoCs should be specifically addressing the discharge of youth aging out of foster care. If there is a State mandate that requires publicly funded institutions to ensure appropriate housing placement, which does not include homelessness, please indicate this in the applicable narrative.

Where: Indicate where persons routinely go upon discharge. Response should identify alternative housing options that are available for discharged persons other than the streets, shelters, and/or McKinney-Vento homeless assistance programs.

Who: Identify stakeholders and/or collaborating agencies that are responsible for ensuring that persons being discharged from a system of care are not routinely discharged into homelessness.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

For each system of care identified below, describe the CoC¿s efforts in coordinating with and/or assisting in the development of local discharge planning policies that ensure persons are not routinely discharged into homelessness, including the streets, shelters, or other McKinney-Vento homeless assistance housing programs. Please review all instructions to ensure that each narrative is fully responsive. (limit 1500 characters)

#### Foster Care (Youth Aging Out):

The NC BoS CoC covers 80 counties, and foster care programs are implemented at the local level. Therefore, the NC BOS CoC has worked to implement protocols in each county's Division of Social Services. These protocols confirm that the Foster Care program begins working with their discharges long before anticipated discharge, and that discharge planning includes identification of housing and employment. In addition, some youth participate in the LINKS program which provides additional housing, education, and employment supports. The MOAs signed between the local NC BOS CoC representative and the county DSS confirm that no one will be discharged from foster care into homelessness.

#### **Health Care:**

Exhibit 1 2010	Page 75	11/16/2010
----------------	---------	------------

Discharge protocols must be developed and confirmed between each regional committee of the NC BOS CoC and the hospital(s) that serves their community. Since the hospitals are independent, and do not fall under a state office the same way that the Mental Health hospitals, prisons, and foster care programs do, it has been harder to implement statewide procedures with all hospitals serving the NC BOS area. Protocols are under development, and hospital social workers are encouraged to participate in regional CoC meetings. Many of our hospitals have participated in SOAR trainings and are working with CoC members to improve access to disability income and Medicaid for homeless people who are frequently accessing hospital services. In addition, hospitals are encouraged to work with CoC members and other housing advocates to identify appropriate permanent housing placements for persons being discharged from the hospital. CoC leadership held a Hospital Summit in June 2009 to educate Hospital Administrators on the benefits of SOAR, investing in permanent supportive housing and respite care, and good discharge planning practices. In June 2010, Regional Committee leadership partnered with National Health Care for the Homeless to sponsor a Documenting Disabilities training for one of the largest health care providers in the CoC. The NC Coalition to End Homelessness is continuing to work with communities to engage health care providers in effective discharge planning.

#### Mental Health:

The NC Balance of State CoC has worked with the ICCHP members from the Division of Mental Health, Developmental Disabilities and Substance Abuse Services (The Division) to refine and implement protocols related to discharge of homeless people from state mental health hospitals and substance abuse treatment facilities. The Division's Office of State Operated Services and the ICCHP co-sponsored three regional trainings on appropriate discharge practices, and these trainings prepared both the Continua and the State's hospitals and treatment centers to refine their discharge practices. The NC Coalition to End Homelessness coordinated these trainings and is continuing to disseminate the lessons and further the conversations from these trainings. These protocols have been finalized in MOAs that are signed by each hospital, treatment program, and the CoC. The MOAs ensure that the facilities and the CoC members are implementing strategies to identify appropriate permanent housing for persons being discharged. FY2010 data indicates that 82% of people discharged from mental health institutions go to other outpatient and residential non-state facilities. CoC leadership is continuing to work with the division of Mental Health to create appropriate housing for persons being discharged from Mental Health Institutions. CoC leadership is also continuing to educate homeless providers and hospital staff on discharge regulations in order to avoid routine discharge into homelessness.

#### **Corrections:**

Exhibit 1 2010	Page 76	11/16/2010
----------------	---------	------------

The NC Interagency Council for Coordinating Homeless Programs (ICCHP) members include representatives from the Department of Corrections (DOC). DOC representatives have been participating members of the ICCHP's Discharge Planning Workgroup for over 5 years. In addition, representatives from DOC participated in trainings on homelessness and discharge planning. Prisons across NC are not allowed to sign MOAs with local Continua; instead all MOAs must be coordinated with the DOC itself. Final protocols between the CoC and DOC are under final review by DOC attorneys. In addition, the CoC has developed MOAs with local county jails. The MOAs confirm that the jails will not discharge anyone that does not meet HUD's definition of an eligible homeless person into a McKinney-Vento funded facility. In addition, jail staff are invited to participate in local COC meetings. FY2010 data indicate that approximately 91% of offenders are discharged to family, friends, or their own home.

Exhibit 1 2010	Page 77	11/16/2010
----------------	---------	------------

### 3C. Continuum of Care (CoC) Coordination

#### Instructions:

A CoC should regularly assess its local homeless assistance system and identify shortcomings and unmet needs. One way in which a CoC can improve itself is through long-term strategic planning. CoCs are encouraged to establish specific goals and then implement short-term action steps. Because of the complexity of existing homeless systems and the need to coordinate multiple funding sources and priorities, there are often multiple long-term strategic planning groups. It is imperative for CoCs to coordinate, as appropriate, with each of these existing strategic planning groups to meet local needs.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

**Does the Consolidated Plan for the** Yes jurisdiction(s) that make up the CoC include the CoC strategic plan goals for addressing homelessness?

If yes, list the goals in the CoC strategic plan that are included in the Consolidated Plan:

The North Carolina Consolidated Plan specifically references the Governor's Interagency Council for Coordinating Homeless Programs' draft North Carolina 10-Year Plan to End Homelessness and states the following goals in support of the 10-Year Plan:

- Provision of up to \$250,000 in ESG funds and up to \$5 million in emergency financial assistance to augment the 10-Year Plan goal to "implement aggressive prevention strategies."
- Use of approximately \$800,000 of the state's ESG allocation over the next 5 years to subsidize supportive services delivery, in response to the 10-Year Plan's identification of specific gaps in services.
- Development of additional units of supportive housing for homeless persons with disabilities using \$4 million in HOME funding and \$4 million from the NCHFA Housing Trust Fund in support of the 10-Year Plan's goal of developing new Permanent Supportive Housing.

Describe how the CoC is participating in or coordinating with the local Homeless Prevention and Rapid re-housing Program (HPRP) initiative, as indicated in the substantial amendment to the Consolidated Plan 2009 Action Plan (1500 character limit):

Exhibit 1 2010	Page 78	11/16/2010
----------------	---------	------------

The CoC is participating in and coordinating with the HPRP initiative through the NC Interagency Council for Coordinating Homeless Programs, the Governor's Office of Economic Recovery and Investment, and NC Coalition to End Homelessness as well as through member agency participation in utilizing HPRP funding at the local level. CoC leadership is also overseeing the implementation plan of HPRP funds. The State distributed funding competitively to local agencies for prevention and rapid re-housing activities, and thirteen of the twenty grantees are located in the Balance of State region. The CoC is using HPŘP to provide financial assistance and housing stabilization services to homeless and at-risk households. In the CoC to date, 2484 clients in 1101 households have been provided prevention assistance; 317 clients in 168 households have been provided rapid re-housing services. In order to make better use of community resources, the funding is being used to shift our system to have housing stabilization at the center. This new focus has allowed us to serve households more effectively by intervening before they become homeless or to re-house households who do become homeless as quickly as possible. HPRP funding has proven particularly important in our rural counties where there is no emergency shelter option.

Describe how the CoC is participating in or coordinating with any of the following: Neighborhood Stabilization Program (NSP) initiative, HUD VASH, or other HUD managed American Reinvestment and Recovery Act programs (2500 character limit)?

The CoC is coordinating with local NSP initiatives through the NC Interagency Council for Coordinating Homeless Programs, the Governor's Office of Economic Recovery and Investment, and the Division of Community Assistance. CoC leadership has educated CoC agencies about NSP, HUD VASH and CDBG-R opportunities. Local CoC member agencies are coordinating with NSP initiatives in their communities. Local members in HUD VASH areas coordinate with the Housing Authorities and VA in their communities to ensure a comprehensive system of housing and services for persons receiving HUD VASH assistance. The CoC has coordinated with the Interagency Council for Coordinating Homeless Programs, the Governor's Focus on Veterans, the Consolidated Planning process, and the CDBG and NSP administrators to encourage several activities, not limited to: 1) using NSP rehabbed homes available for rental units as sites for HPRP permanent rental housing; 2) identifying NSP neighborhoods as locations for HPRP outreach; 3) using CDBG or CDBG-R renovated rental housing as possible sites for HPRP permanent rental housing; 4) using HUD-VASH vouchers as permanent housing resources for homeless veterans served through the CoC.

Indicate if the CoC has established policies Yes that require homeless assistance providers to ensure all children are enrolled in school and connected to appropriate services within the community?

Exhibit 1 2010 Page 79 11/16/2010

If yes, please describe the established policies that are in currently in place.

The NC Balance of State CoC requires that providers ensure that homeless children in their programs are enrolled in school in accordance with state law and with the McKinney-Vento Act. The CoC also requires that providers link these children to appropriate services in their community for which they are eligible. To ensure these requirements are met, the CoC encourages providers to designate a staff member to oversee the educational and service needs of homeless children. The staff's duties include 1) working with the school system is homeless liaison and/or social workers to assist in the identification of homeless children and coordinate the provision of services and 2) coordinating with parents and/or guardians to acquire necessary documentation and facilitate enrollment in school and service programs.

Describe the CoC's efforts to collaborate with local education agencies to assist in the identification of homeless families and inform them of their eligibility for McKinney-Vento education services. (limit 1500 characters)

The CoC actively builds partnerships with local homeless school liaisons and social workers. School liaisons and social workers participate in Regional Committees and serve on local Ten-Year Plans, where they report on numbers of homeless and at-risk students and provide input on the planning and provision of services. Some providers have recruited school liaisons to sit on their Board of Directors. These close partnerships ensure ongoing communication between the school system and the homeless service system and ensure any issues that affect the whole community can be addressed quickly and comprehensively. Local agencies work directly with school homeless liaisons to identify homeless children, enroll them in school, and connect them to appropriate services. Providers contact school liaisons upon children's program entry, and case managers ensure that proper documentation is quickly acquired and provide follow-up to finalize enrollment. In some regions, school social workers periodically visit shelters to ensure children are enrolled in school and receiving all needed educational services. After school vacations, they also review records of children who have been identified as at-risk of homelessness and work with providers to follow up on their current status and engage them with needed services. School homeless liaisons also play an active role during the annual Point-in-Time Count in identifying homeless and at-risk children and reporting this data to the CoC.

Describe how the CoC has, and will continue, to consider the educational needs of children when families are placed in emergency or transitional shelter. (limit 1500 characters)

Exhibit 1 2010 Page 80 11/16/2010

Every effort is made to ensure that the education of homeless children continues with minimal interruption when they are placed in emergency shelter or transitional housing. Providers work with school homeless liaisons and social workers to keep children in their school of origin. Most children are able to remain in their original school, thereby preventing lapses in attendance. In some rural areas where only one shelter exists in a region, it is necessary to place homeless families at a distance from the school of origin. Providers work with school transportation services to arrange bus services to the original school, and some school districts provide parents the option of receiving mileage to drive their children to the school of origin. In cases where it is impossible to arrange such transportation, the children are enrolled in the school closest to the shelter. Upon program entry, shelter staff immediately contact the school system and enrollment is completed as rapidly as possible to minimize missed school days. School staff expedite enrollment in services provided by the school, such as free/reduced lunch and after-school programs. Shelters and transitional housing programs also provide educational services to children in their programs; some provide on-site tutoring services, while others arrange for children to receive tutoring and mentoring services from partner groups like the Boys and Girls Club of America.

Describe the CoC's current efforts to combat homelessness among veterans. Narrative should identify organizations that are currently serving this population, how this effort is consistent with CoC strategic plan goals, and how the CoC plans to address this issue in the future.(limit 1500 characters)

The CoC is actively increasing its PSH inventory to house homeless veterans. In the past year we added 35 HUD-VASH vouchers which were rapidly filled, some by chronically homeless veterans who were unsheltered for years. The CoC is applying for 196 new Shelter+Care units which can house veterans who do not reside near a VASH area. Regional Committees are pursuing housing funded through local municipalities, counties, and the NC Housing Finance Agency. Current projects under development total 30 units of transitional housing near VA medical centers, and a PHA is applying for project-based HUD-VASH vouchers to further increase permanent housing options targeted to veterans. The CoC coordinates with the VA and other veterans service/advocacy groups through Regional Committee leadership, which works directly with veterans representatives and coordinates community-wide systems of care. Non-profit and faith-based agencies provide outreach, disability advocacy, counseling, life skills, and job training. The Employment Security Commission and JobLink Career Services provide education, training, and job search services. SOAR-trained caseworkers assist disabled veterans to apply for SSI/SSDI benefits. Regional Committees coordinate with local VAs to hold Stand Downs and Project Homeless Connects with targeted service linkages for veterans. Several Regional Committees are conducting needs assessments to identify and fill any service gaps to ensure comprehensive care for veterans.

Exhibit 1 2010	Page 81	11/16/2010

### 3D. Hold Harmless Need (HHN) Reallocation

#### Instructions:

Continuum of Care (CoC) Hold Harmless Need (HHN) Reallocation is a process whereby an eligible CoC may reallocate funds in whole or in part from SHP renewal projects to create one or more new permanent housing projects and/or a new dedicated HMIS project. A CoC is eligible to use the HHN Reallocation process if it's Final Pro Rata Need (FPRN) is based on it's HHN amount or if it is a newly approved merged CoC that used the Hold Harmless Merger process during the 2010 CoC Registration process.

The HHN Reallocation process allows eligible CoCs to fund new permanent housing or dedicated HMIS projects by transferring all or part of funds from existing SHP grants that are eligible for renewal in 2010 into a new project. New reallocated permanent housing projects may be for SHP (one, two, or three years), S+C (five or ten years), and Section 8 Moderate Rehabilitation (ten years). New reallocated HMIS projects may be for one, two or three years.

A CoC who¿s FPRN is based on its Preliminary Pro Rata Need (PPRN) is not eligible to reallocate existing projects through this process and should therefore always select "No" to the questions below.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

Does the CoC want to reallocate funds from No one or more expiring SHP grant(s) into one or more new permanent housing or dedicated HMIS project(s)?

Is the CoCs Final Pro Rata Need (FPRN) No based on either its Hold Harmless Need (HHN) amount or the Hold Harmless Merger process?

CoCs who are in PPRN status are not eligible to reallocate projects through the HHN reallocation process.

Page 82	11/16/2010
	Page 82

### 4A. Continuum of Care (CoC) 2009 Achievements

#### Instructions:

In 2009, CoCs were asked to propose numeric achievements for each of HUD¿s five national objectives related to ending chronic homelessness and moving families and individuals to permanent housing. In 2010, CoCs will report on their actual accomplishments versus what was proposed in the previous application.

In the column labeled ¿2009 Proposed Numeric Achievement¿, enter the number of beds, percentage, or number of households that was entered in the 2009 application for the applicable objective. In the column labeled ¿Actual Numeric Achievement¿, enter the actual number of beds/percentage/number of households that the CoC has reached to date for each objective.

CoCs will also indicate whether or not they submitted an Exhibit 1 in 2009. If a CoC did not submit an Exhibit 1 in 2009, they should enter ¿No¿ to the question below. Finally, CoCs that did not fully meet the proposed numeric achievement for any of the objectives should indicate the reason in the space provided below.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

Objective	2009 Proposed Numeric Achievement:		Actual Numeric Achievement	
Create new permanent housing beds for the chronically homeless.	86	Beds	81	B e d s
Increase the percentage of homeless persons staying in permanent housing over 6 months to at least 77%.	80	%	80	%
	•			
Increase the percentage of homeless persons moving from transitional housing to permanent housing to at least 65%.	88	%	75	%
Increase percentage of homeless persons employed at exit to at least 20%	27	%	41	%
Decrease the number of homeless households with children.	280	Households	353	H o u s e h o l d s

## Did CoC submit an Exhibit 1 application in Yes 2009?

Exhibit 1 2010	Page 83	11/16/2010
----------------	---------	------------

## If the CoC was unable to reach its 2009 proposed numeric achievement for any of the national objectives, provide a detailed explanation.

Although we exceeded HUD's goals for each of these objectives, we did not meet our CoC goals in every area. We were unable to reach our goal for persons moving from transitional housing to permanent housing due the performance of one agency that faced operational difficulties and had to exit clients to an alternate TH program. Without this agency, performance would have been at 90%. CoC leadership will provide them with targeted technical assistance and we are confident of achieving our goal in the coming year. Consistent with national trends, we saw an increase in the number of homeless families. This can be attributed in part to an increase in family beds available during this year's PIT Count. Also, because homelessness is a lagging indicator of the economic state, we are now seeing families enter the system who have exhausted all other resources. Unemployment, a shortage of affordable housing, and cuts to state-funded services have all contributed to increased family homelessness. Providers are working to compensate by connecting clients to services and reducing lengths of stay while the CoC increases its stock of permanent housing for families. The CoC made progress on creating new PSH beds for chronically homeless persons, but was not able to bring enough beds online by the PIT Count to meet its numeric objective. The CoC plans to continue to pursue this goal and is requesting funding for beds for 27 chronically homeless adults and 24 children in this competition.

Exhibit 1 2010	Page 84	11/16/2010

## 4B. Continuum of Care (CoC) Chronic Homeless Progress

#### Instructions:

HUD must track each CoCs progress toward ending chronic homelessness. In the 2010 NOFA, a chronically homeless person is defined as an unaccompanied homeless individual with a disabling condition or a family with at least one adult member who has a disabling condition who has either been continuously homeless for at least a year OR has had at least four episodes of homelessness in the past three (3) years.

This section asks each CoC to track changes year to year in the number of chronically homeless persons as well the number of beds available for this population. CoCs will complete this section using data reported for the 2008, 2009, and 2010 (if applicable) Point-In-Time counts as well as data collected and reported on for the Housing Inventory Counts (HIC) for those same years. For each year, indicate the total unduplicated point-in-time count of the chronically homeless as reported in that year. For 2008 and 2009, this number should match the number indicated on form 2J of the respective year sexhibit 1. For 2010, this number should match the number entered on the Homeless Data Exchange (HDX).

Next, enter the total number permanent housing beds that were designated for the chronically homeless in 2008 and 2009, as well as the number of beds that are currently in place. For 2010, this number of beds should match the number of beds reported in the 2010 HIC and entered onto the Homeless Data Exchange (HDX). CoCs should include beds designated for this population from all funding sources.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

## Indicate the total number of chronically homeless persons and total number of permanent housing beds designated for the chronically homeless persons in the CoC for 2008, 2009, and 2010.

Year	Number of CH Persons	Number of PH beds for the CH
2008	237	43
2009	180	71
2010	262	81

Indicate the number of new permanent housing beds in place and made available for occupancy for the chronically homeless between February 1, 2009 and January 31, 2010.

Identify the amount of funds from each funding source for the development and operations costs of the new permanent housing beds designated for the chronically homeless, that were created between February 1, 2009 and January 31, 2010.

Exhibit 1 2010 Page 85 11/16/2010
-----------------------------------

Cost Type	HUD McKinney- Vento	Other Federal	State	Local	Private
Development	\$0	\$0	\$0	\$0	\$0
Operations	\$313,110	\$132,959	\$363,621	\$0	\$0
Total	\$313,110	\$132,959	\$363,621	\$0	\$0

If the number of chronically homeless persons increased or if the number of permanent beds designated for the chronically homeless decreased, please explain (limit 750 characters):

Although we have continued to add beds for the chronically homeless, our chronically homeless population number has increased. This is due in part to improving outreach and point-in-time count efforts which are locating and bringing in more chronically homeless persons. This year, we served 53 more chronically homeless persons in shelter than last year, and identified 29 more unsheltered chronically homeless persons. But it is also a continuing consequence of statewide challenges with mental health reform and disruptions of traditional mental health services. We are working to continue providing more permanent housing beds with supportive services to meet the increased need for this population.

Exhibit 1 2010	Page 86	11/16/2010
----------------	---------	------------

## 4C. Continuum of Care (CoC) Housing Performance

#### Instructions:

All CoC funded non-HMIS projects are required to submit an Annual Progress Report (APR) within 90 days of a given operating year. To demonstrate performance on participants remaining in permanent housing for more than six months, CoCs must use data on all permanent housing projects that should have submitted an APR for the most recent operating year. Projects that did not submit an APR on time must also be included in this calculation.

Complete the table below using data entered for Question 12(a) and 12(b) for the most recently submitted APR for all permanent housing projects (SHP-PH or S+C TRA/SRA/SRO/PRA) within the CoC that should have submitted one. Enter totals in field¿s a-e. The ¿Total PH %¿ will be auto-calculated after selecting ¿Save.¿ Please note, the percentage is calculated as c. +d. divided by a. +b. multiplied by 100. The last field (e.) is excluded from the calculation.

CoCs that do not have any SHP-PH or S+C projects for which an APR was required should select ¿No¿ to the question below. This only applies to CoCs that do not have any CoC funded permanent housing projects currently operating within their CoC that should have submitted an APR.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

Does the CoC have any permanent housing Yes projects (SHP-PH or S+C) for which an APR was required to be submitted?

Participants in Permanent Housing (PH)	
a. Number of participants who exited permanent housing project(s)	90
b. Number of participants who did not leave the project(s)	342
c. Number of participants who exited after staying 6 months or longer	71
d. Number of participants who did not exit after staying 6 months or longer	273
e. Number of participants who did not exit and were enrolled for less than 6 months	67
TOTAL PH (%)	80

#### Instructions:

Exhibit 1 2010 Page 87 11/16/2010
-----------------------------------

HUD will also assess CoC performance in moving participants in SHP transitional housing programs into permanent housing. To demonstrate performance, CoCs must use data on all transitional housing projects that should have submitted an APR for the most recent operating year. Projects that did not submit an APR on time must also be included in this calculation.

Complete the table below using cumulative data entered for Question 14 on the most recently submitted APR for all transitional housing projects (SHP-TH) within the CoC that should have submitted one. Once amounts have been entered into a & b, select ¿Save.¿ The ¿Total TH %¿ will be auto-calculated. Please note, the percentage is calculated as b. divided by a., multiplied by 100. CoCs that do not have any SHP-TH projects for which an APR was required should select ¿No¿ to the question below. This only applies to CoCs that do not have any CoC funded transitional housing projects currently operating within their CoC that should have submitted an APR.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

## Does CoC have any transitional housing Yes projects (SHP-TH) for which an APR was required to be submitted?

Participants in Transitional Housing (TH)	
a. Number of participants who exited TH project(s), including unknown destination	96
b. Number of SHP transitional housing participants that moved to permanent housing upon exit	72
TOTAL TH (%)	75

Exhibit 1 2010	Page 88	11/16/2010
----------------	---------	------------

# 4D. Continuum of Care (CoC) Enrollment in Mainstream Programs and Employment Information

#### Instructions:

HUD will assess CoC performance in assisting program participants with accessing mainstream services to increase income and improve outcomes such as health, education, safety, and/or economic outcomes of homeless persons. To demonstrate performance, CoCs must use data on all non-HMIS projects (SHP-PH, SHP-TH, SHP-SH, SHP-SSO, S+C TRA/SRA/PRA/SRO) that should have submitted an APR for the most recent operating year. Projects that did not submit an APR on time must also be included in this calculation.

Complete the table below using cumulative data entered for Question 11 on the most recently submitted APR for all non-HMIS projects within the CoC that should have submitted one. Each CoC shall first indicate the total number of exiting adults. Next, enter the total number of adults that exited CoC non-HMIS project with each source of income. Once amounts have been entered, select ¿Save¿ and the percentages will be auto-calculated. CoCs that do not have any non-HMIS projects for which an APR was required should select ¿No¿ to the question below. This only applies to CoCs that do not have any CoC funded non-HMIS projects currently operating within their CoC that should have submitted an APR.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions; which can be accessed on the left-hand menu bar.

**Total Number of Exiting Adults: 186** 

Mainstream Program	Number of Exiting Adults	Exit Percentage (Auto-calculated)	
SSI	28	15	%
SSDI	25	13	%
Social Security	13	7	%
General Public Assistance	0	0	%
TANF	16	9	%
SCHIP	0	0	%
Veterans Benefits	0	0	%
Employment Income	77	41	%
Unemployment Benefits	4	2	%
Veterans Health Care	3	2	%
Medicaid	40	22	%
Food Stamps	65	35	%
Other (Please specify below)	9	5	%
Child support, WorkFirst			
No Financial Resources	21	11	%

The percentage values will be calculated by the system when you click the "save" button.

Exhibit 1 2010	Page 89	11/16/2010

Does the CoC have any non-HMIS projects for Yes which an APR was required to be submitted?

Exhibit 1 2010	Page 90	11/16/2010
----------------	---------	------------

## 4E. Continuum of Care (CoC) Participation in Energy Star and Section 3 Employment Policy

#### Instructions:

HUD promotes energy-efficient housing. All McKinney-Vento funded projects are encouraged to purchase and use Energy Star labeled products. For information on Energy Star initiative go to: http://www.energystar.gov

A "Section 3 business concern" is one in which: 51% or more of the owners are section 3 residents of the area of service; or at least 30% of its permanent full-time employees are currently section 3 residents of the area of service, or within three years of their date of hire with the business concern were section 3 residents; or evidence of a commitment to subcontract greater than 25% of the dollar award of all subcontracts to businesses that meet the qualifications in the above categories is provided. The "Section 3 clause" can be found at 24 CFR Part 135.

Has the CoC notified its members of Yes the Energy Star Initiative?

Are any projects within the CoC requesting No funds for housing rehabilitation or new construction?

Exhibit 1 2010	Page 91	11/16/2010
----------------	---------	------------

## 4F. Continuum of Care (CoC) Enrollment and Participation in Mainstream Programs

It is fundamental that each CoC systematically help homeless persons to identify, apply for, and follow-up to receive benefits under SSI, SSDI, TANF, Medicaid, Food Stamps, SCHIP, WIA, and Veterans Health Care as well as any other State or Local program that may be applicable.

Does the CoC systematically analyze its Yes projects APRs in order to improve access to mainstream programs?

If 'Yes', describe the process and the frequency that it occurs.

The NC BoS CoC Permanent Housing subcommittee and Transitional Housing subcommittee each meet at least three times per year, usually quarterly, to assess progress based on APRS of projects in their areas; the Steering Committee is informed of results.

Does the CoC have an active planning Yes committee that meets at least 3 times per year to improve CoC-wide participation in mainstream programs?

If "Yes", indicate all meeting dates in the past 12 months.

The NC BoS CoC Permanent Housing, Transitional Housing, and Families subcommittees each discuss access to mainstream benefits and other sources of increasing income; the Steering Committee is informed of results. Meetings this year were held May 13, May 17, May 18, and October 25.

Does the CoC coordinate with the State Yes Interagency Council on Homelessness to reduce or remove barriers to accessing mainstream services?

Does the CoC and/or its providers have specialized staff whose primary responsibility is to identify, enroll, and follow-up with homeless persons on participation in mainstream programs?

If yes, identify these staff members Both

Does the CoC systematically provide Yes training on how to identify eligibility and program changes for mainstream programs to provider staff.

Exhibit 1 2010	Page 92	11/16/2010

If "Yes", specify the frequency of the training. Monthly or more

Does the CoC use HMIS as a way to screen No for mainstream benefit eligibility?

If "Yes", indicate for which mainstream programs HMIS completes screening.

Has the CoC participated in SOAR training? Yes

If "Yes", indicate training date(s).

CoC providers attended SOAR trainings held by the CoC leadership on December 9-10, 2009, April 26-27, 2010 and July 21-22, 2010. In addition, CoC leadership provides ongoing support and technical assistance for NC SOAR. SOAR caseworkers participate in a monthly meeting where they report outcomes, receive updates on the SOAR process, and troubleshoot SOAR applications.

Exhibit 1 2010	Page 93	11/16/2010
----------------	---------	------------

## **4G: Homeless Assistance Providers Enrollment and Participation in Mainstream Programs**

## Indicate the percentage of homeless assistance providers that are implementing the following activities:

Activity	Percentage
Case managers systematically assist clients in completing applications for mainstream benefits.     Describe how service is generally provided:	57%
Most agencies assist people in completing applications, including assisting with the paperwork needed to apply for benefits. In addition, several of the programs have SOAR trained caseworkers who are able to use the SOAR methodology to assist with SSI/SSDI applications. One county in the CoC has secured a dedicated full time SOAR staff and two part time SOAR staff to assist individuals with applications for benefits.	
2. Homeless assistance providers supply transportation assistance to clients to attend mainstream benefit appointments, employment training, or jobs.	60%
3. Homeless assistance providers use a single application form for four or more mainstream programs: 3.a Indicate for which mainstream programs the form applies:	14%
Food Stamps, Medicaid, SSI, SSDI, TANF, Other Department of Social Services financial assistance including rental payment, prescription assistance, and utility payment	
4. Homeless assistance providers have staff systematically follow-up to ensure mainstream benefits are received.	77%
4a. Describe the follow-up process:	
77% of our agencies report that they conduct some form of follow up to ensure that benefits are received. The majority of the follow-up involves agencies' case managers conducting telephone follow-up with the benefits case manager to inquire about the status of the application and determine if additional information is needed. In some programs case managers follow-up by attending appointments with individuals, at the permission of the individual, to ensure that benefits case managers have complete information and needed documentation for their programs.

### Continuum of Care (CoC) Project Listing

#### **Instructions:**

IMPORTANT: Prior to starting on the CoC Project Listing, CoCs should carefully review the CoC Project Listing Instructions and the CoC Project Listing training module, both of which are available at www.hudhre.info/esnaps.

To upload all Exhibit 2 applications that have been submitted to this CoC, click on the "Update List" button. This process will take longer based upon the number of projects that need to be located. The CoC can either work on other parts of Exhibit 1 or it can log out of e-snaps and come back later to view the updated list. To review a project, click on the next to each project to view project details.
