How many <u>adults</u> were discharged from the following systems within 30 days of becoming homeless?				
36	Criminal Justice System (jails, prisons)			
37	Behavioral Health System (mental health/substance use)			
38	Health Care System (hospitals)			

METHODOLOGIES
What methods were used to conduct your count?
Survey/interview with program participants HMIS Other (specify:)

DEFINITIONS OF TERMS

Program Type

Rapid Re-Housing provides time-limited rental assistance and housing stabilization services to move homeless people into permanent housing as quickly as possible.

Programs include CoC-funded & ESG-funded rapid re-housing programs, VA Supportive Services for Veteran Families (SSVF) rapid re-housing programs, HUD-funded Rapid Re-Housing Demonstration programs, and other publicly or privately funded rapid re-housing programs.

Only report program participants who are actively enrolled in the RRH program (including those only receiving services) **and** residing in permanent housing on the night of the count.

For the Bed Inventory chart, rapid re-housing beds and units are equal to the number of permanent housing beds and units occupied by program participants on the night of the count.

Beds and Units

Beds for Families were filled by households of adults and children.

Units for Families are separate rooms, units, or buildings that each house one family.

Beds for Adults were filled by households in which everyone is an adult age 18 or over (single adults, adult couples without children, adults with adult sons/daughters).

Beds for Households of Only Children were filled by households in which everyone is under 18 (unaccompanied children, adolescent parents and their children, adolescent siblings, etc.)

Beds dedicated to Veterans are beds that are reserved for homeless veterans (and their families, if applicable). These beds must be filled by veterans unless there are no homeless veterans within the program's service area.

Beds dedicated to youth are beds that are reserved for homeless youth up to age 24. These beds must be filled by youth unless there are no homeless youth within the program's service area.

Households

- 1. Households with Adults and Children: at least one adult and one child are present on the night of the count.
- **2.** Households without Children: single adults, adult couples without children, adults with adult sons/daughters, and adults whose children are not present with them on the night of the count.
- **3.** Households of Only Children: every person is aged 17 or younger. This includes unaccompanied children under 18, adolescent parents and their children, adolescent siblings, or other household configurations composed only of children.

Chronically Homeless

A homeless individual (adult or youth) or a homeless family with a Head of Household (adult or youth) who:

1. Has a disabling condition (serious mental illness, substance use disorder, developmental disability, PTSD, cognitive impairments from brain injury, chronic physical illness or physical disability)

AND

2. Has been homeless and living in a place not meant for human habitation or an emergency shelter continuously for at least 1 year or on at least 4 separate occasions in the last 3 years where the combined length of time homeless on those occasions totals at least 12 months

A chronically homeless household includes at least one adult member or minor Heads of Household who is chronically homeless. When one household member qualifies as chronically homeless, <u>all members</u> of that household are automatically considered

chronically homeless. (For example, if one adult in a two-adult household is identified as chronically homeless, both adults should be counted as chronically homeless.)

Survivors of Domestic Violence

Adults who are currently experiencing homelessness because they are fleeing domestic violence, dating violence, sexual assault, or stalking.
