11% chronically homeless

People who are chronically homeless have experienced homelessness for at least a year – or repeatedly – while struggling with a disabling condition such as a serious mental illness, substance use disorder, or physical disability.

54% of homeless vets were African-American

Among North Carolina's larger veteran population, African-Americans are only 22%. This indicates African-Americans experience homelessness at a disproportionate rate.

White: 41%, all other races: 2%, multiple races: 3%
