Before Starting the Exhibit 1 Continuum of Care (CoC) Application

HUD strongly encourages ALL applicants to review the following information BEFORE beginning the FY2011 Exhibit 1 Continuum of Care (CoC) application.

Training resources are available online at: www.hudhre.info/esnaps &nbsp- Training modules are available to help complete or update the Exhibit 1 application, including attaching required forms to the application. &nbsp- The HUD HRE Virtual Help Desk is available for submitting technical and policy questions. 

Things to Remember

- Review the FY2011 Notice of Funding Availability for the Continuum of Care (CoC) Homeless Assistance Program in its entirety for specific application and program requirements.
- CoCs that imported their FY2010 information during the CoC Registration process are reminded to carefully review each question in Exhibit 1 to ensure the response imported is appropriate. Questions may have changed from the FY2010 process in which case the imported response may no longer be relevant. Note that not all questions from FY2010 were imported and new questions will require manual responses. Be sure to review the application carefully and verify and update as needed to ensure accuracy.
- New CoCs or CoCs that did not apply in FY2010 will not have information pre-populated and must complete all Exhibit 1 forms.
1A. Continuum of Care (CoC) Identification

Instructions:
The fields on this screen are read only and reference the information entered during the CoC Registration process. Updates cannot be made at this time. If the information on this screen is not correct, contact the HUD Virtual Help Desk at www.hudhre.info.

CoC Name and Number (From CoC Registration): NC-506 - Wilmington/Brunswick, New Hanover, Pender Counties CoC

CoC Lead Agency Name: Southeastern Center for MH/DD/SAS
1B. Continuum of Care (CoC) Primary Decision-Making Group

Instructions:
The following questions are related to the CoC primary decision-making group. The primary responsibility of this group is to manage the overall planning effort for the entire CoC, including, but not limited to:
- Setting agendas for full Continuum of Care meetings
- Project monitoring
- Determining project priorities
- Providing final approval for the CoC application submission.
This body is also responsible for the implementation of the CoC’s HMIS, either through direct oversight or through the designation of an HMIS implementing agency. This group may be the CoC Lead Agency or may authorize another entity to be the CoC Lead Agency under its direction.

Name of primary decision-making group: Tri County Homeless Interagency Council
Indicate the frequency of group meetings: Monthly or more
If less than bi-monthly, please explain (limit 500 characters):
Indicate the legal status of the group: Not a legally recognized organization
Specify "other" legal status:

Indicate the percentage of group members that represent the private sector: 95%
(e.g., non-profit providers, homeless or formerly homeless persons, advocates and consumer interests)

* Indicate the selection process of group members:
(select all that apply)
   Elected: 
   Assigned: 
   Volunteer: X
   Appointed: 
   Other: 
Specify "other" process(es):

Applicant: Wilmington/Brunswick, New Hanover, Pender Counties CoC
Project: NC-506 COC Registration FY2011
Briefly describe the selection process of group members. Description should include why this process was established and how it works (limit 750 characters):

Membership within the Tri County Homeless Interagency Council is open to organizations, agencies, and individuals that share the vision of service to our communities within the North Carolina counties of New Hanover, Brunswick and Pender. Membership is defined as having attended at least one Tri County Homeless Interagency Council meeting or Sub Committee meeting within the current calendar year. To receive voting rights a member must be a resident or operate in the tri county area, and must attend 50% of scheduled meetings within the past twelve months. Each member organization shall have one vote. No agency may vote on any matter in which they have a financial interest.

* Indicate the selection process of group leaders:
(select all that apply):

- Elected: X
- Assigned:
- Volunteer: X
- Appointed:
- Other:

Specify "other" process(es):

If administrative funds were made available to the CoC, will the primary-decision making body, or its designee, have the capacity to be responsible for activities such as applying for HUD funding and serving as a grantee, providing project oversight, and monitoring? Explain (limit to 750 characters):

Yes, the Tri-County Homeless Interagency Council has the capacity to be responsible for HUD funding and project oversight. The Council has already instituted standard operating procedures with the potential of establishing a non-profit. The Council has also identified a fiduciary agent for the group. A process of program monitoring is in place and all Continuum of Care projects are presented no less than annually for review by the whole membership.
1C. Continuum of Care (CoC) Committees, Subcommittees and Work Groups

Instructions:

Provide information on up to five of the CoCs most active CoC-wide planning committees, subcommittees, and workgroups. CoCs should only include information on those groups that are directly involved in CoC-wide planning activities such as project review and selection, discharge planning, disaster planning, completion of the Exhibit 1 application, conducting the point-in-time count, and 10-year plan coordination. For each group, briefly describe the role and how frequently the group meets. If one of more of the groups meet less than quarterly, please explain.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

1E. Continuum of Care (CoC) Project Review and Selection Process

Instructions:
The CoC solicitation of projects and the project selection process should be conducted in a fair and impartial manner. For each of the following items, indicate all of the methods and processes the CoC used in the past year to assess the performance, effectiveness, and quality of all requested new and renewal project(s).

In addition, indicate if any written complaints have been received by the CoC regarding any CoC matter in the last 12 months, and how those matters were addressed and/or resolved.

Open Solicitation Methods: (select all that apply)
- f. Announcements at Other Meetings
- e. Announcements at CoC Meetings
- c. Responsive to Public Inquiries
- b. Letters/Emails to CoC Membership
- d. Outreach to Faith-Based Groups

Rating and Performance Assessment Measure(s): (select all that apply)
- b. Review CoC Monitoring Findings
- g. Site Visit(s)
- k. Assess Cost Effectiveness
- q. Review All Leveraging Letters (to ensure that they meet HUD requirements)
- c. Review HUD Monitoring Findings
- r. Review HMIS participation status
- d. Review Independent Audit
- p. Review Match
- i. Evaluate Project Readiness
- e. Review HUD APR for Performance Results
- n. Evaluate Project Presentation
- o. Review CoC Membership Involvement
- f. Review Unexecuted Grants
- a. CoC Rating & Review Committee Exists
- m. Assess Provider Organization Capacity
- l. Assess Provider Organization Experience

Voting/Decision-Making Method(s): (select all that apply)
- c. All CoC Members Present Can Vote
- a. Unbiased Panel/Review Committee
- e. Consensus (general agreement)
- d. One Vote per Organization
- b. Consumer Representative Has a Vote
- f. Voting Members Abstain if Conflict of Interest

Were there any written complaints received by the CoC regarding any matter in the last 12 months? No

If yes, briefly describe complaint(s), how it was resolved, and the date(s) resolved (limit 1000 characters):
1F. Continuum of Care (CoC) Housing Inventory Count--Change in Beds Available

For each housing type, indicate if there was a change (increase or reduction) in the total number of beds counted in the FY2011 Housing Inventory Count (HIC) as compared to the FY2010 HIC. If there was a change, please describe the reasons in the space provided for each housing type. If the housing type does not exist in your CoC, please select "Not Applicable" and indicate that in the text box for that housing type.

**Emergency Shelter:** Yes

Briefly describe the reason(s) for the change in Emergency Shelter beds, if applicable (limit 750 characters):

Salvation Army increased their emergency shelter beds by 10 due to the suspension of their Homeward Bound transitional program.

**HPRP Beds:** No

Briefly describe the reason(s) for the change in HPRP beds or units, if applicable (limit 750 characters):

**Safe Haven:** No

Briefly describe the reason(s) for the change in Safe Haven beds, if applicable (limit 750 characters):

**Transitional Housing:** Yes

Briefly describe the reason(s) for the change in Transitional Housing beds, if applicable (limit 750 characters):

Good Shepherd Center's Fourth Quarter transitional housing program closed, causing a reduction of 26 beds for single men and women in recovery. This program closed in part due to under utilization, and also because of high rent and maintenance costs. Salvation Army temporarily suspended their Homeward Bound transitional program, which was a loss of 10 transitional beds for single men and women. They plan to re-vamp the program and re-open it before the end of the year.

**Permanent Housing:** Yes

Briefly describe the reason(s) for the change in Permanent Housing beds, if applicable (limit 750 characters):
Wilmington has received 25 new HUD-VASH vouchers for a total of 40 vouchers. The vouchers provided housing for 44 people at the time that the 2011 HIC was submitted, with 12 additional people having an assigned voucher and awaiting a rental agreement. Cape Fear Housing for Independent Living increased the capacity for their Kathryn Leigh program to 18, as they have been able to house up to 18 individuals at one time depending on the cost of apartment rental. Twenty-One vouchers for Permanent Supportive Housing through the Tenant Based Rental Assistance program were converted to standard Section 8 vouchers due to lack of city funding to support the program.

**CoC certifies that all beds for homeless persons were included in the Housing Inventory Count (HIC) as reported on the Homelessness Data Exchange (HDX), regardless of HMIS participation and HUD funding:** Yes
1G. Continuum of Care (CoC) Housing Inventory Count - Data Sources and Methods

Instructions:
Complete the following items based on data collection methods and reporting for the Housing Inventory Count (HIC), including Unmet need determination. The information should be based on a survey conducted in a 24-hour period during the last ten days of January 2011. CoCs were expected to report HIC data on the Homelessness Data Exchange (HDX).

Did the CoC submit the HIC data in HDX by May 31, 2011?
Yes

If no, briefly explain why the HIC data was not submitted by May 31, 2011 (limit 750 characters).

Indicate the type of data sources or methods used to complete the housing inventory count:
HMIS plus housing inventory survey

Indicate the steps taken to ensure the accuracy of the data collected and included in the housing inventory count:
Follow-up, Instructions, Updated prior housing inventory information, Confirmation, Training, HMIS

Must specify other:

Indicate the type of data or method(s) used to determine unmet need:
Unsheltered count, HUD unmet need formula, HMIS data, Local studies or non-HMIS data sources, Housing inventory, Stakeholder discussion, Provider opinion through discussion or survey forms

Specify "other" data types:

If more than one method was selected, describe how these methods were used together (limit 750 characters):
The point in time unsheltered need count and housing inventory were used to supply the base census numbers used in the unmet need calculations. This base census was verified using HMIS data where available. Unmet needs were also checked against the City of Wilmington Consolidated Plan, and the findings of the Ten Year Plan Committee. Stakeholder discussions are used to confirm unmet need data and incorporate emerging trends in the homeless population and available support for those populations.
2A. Homeless Management Information System (HMIS) Implementation

Instructions:

All CoCs are expected to have a functioning Homeless Management Information System (HMIS). An HMIS is a computerized data collection application that facilitates the collection of information on homeless individuals and families using residential or other homeless services and stores that data in an electronic format. CoCs should complete this section in conjunction with the lead agency responsible for the HMIS. All information should reflect the status of HMIS implementation as of the date of application submission.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Select the HMIS implementation coverage area: Regional (multiple CoCs)

Select the CoC(s) covered by the HMIS: (select all that apply)
- NC-507 - Raleigh/Wake County CoC
- NC-509 - Gastonia/Cleveland, Gaston, Lincoln Counties CoC
- NC-513 - Chapel Hill/Orange County CoC
- NC-504 - Greensboro/High Point CoC
- NC-501 - Asheville/Buncombe County CoC
- NC-502 - Durham City & County CoC
- NC-506 - Wilmington/Brunswick, New Hanover, Pender Counties CoC
- NC-511 - Fayetteville/Cumberland County CoC
- NC-516 - Northwest North Carolina CoC
- NC-503 - North Carolina Balance of State CoC
- NC-500 - Winston Salem/Forsyth County CoC

Is the HMIS Lead Agency the same as the CoC Lead Agency? No

Does the CoC Lead Agency have a written agreement with the HMIS Lead Agency? Yes

Has the CoC selected an HMIS software product? Yes

If "No" select reason: Service Point

If "Yes" list the name of the product: Bowman Systems, Inc.

What is the name of the HMIS software company? Bowman Systems, Inc.

Does the CoC plan to change HMIS software within the next 18 months? No

Indicate the date on which HMIS data entry started (or will start): 05/01/2006

Indicate the challenges and barriers impacting the HMIS implementation: No or low participation by non-HUD funded providers

Exhibit 1 2011
Page 78
10/31/2011
If CoC indicated that there are no challenges or barriers impacting HMIS implementation, briefly describe either why CoC has no challenges or how all barriers have been overcome (limit 1000 characters).

If CoC identified one or more challenges or barriers impacting HMIS implementation, briefly describe how the CoC plans to overcome them (limit 1000 characters).

As a CoC we are continuing to improve data quality through standardized and customized reporting, end user certification & refresher training, and focused technical assistance. Through the CHIN Committee of our Tri-County Homeless Interagency Council we review the monthly HMIS Data Quality report produced by CHIN and the AHAR details report. The area that we struggle with most is coverage with our very small non-HUD programs. Most of the agencies who do not receive McKinney-Vento funding are small, volunteer-run organizations that do not have the resources, staff, or capacity to enter data into our HMIS. Without the requirement to participate in HMIS for funding, these agencies are resistant to put financial or volunteer hours into HMIS. We will continue to educate these facilities about the statewide and program benefits of HMIS. We are also exploring regional staff to assist with data entry for these agencies in order to compensate for inadequate resources and staff.
2B. Homeless Management Information System (HMIS) Lead Agency

Enter the name and contact information for the HMIS Lead Agency. This is the organization responsible for implementing the HMIS within a CoC. There may only be one HMIS Lead Agency per CoC.

Organization Name: North Carolina Housing Coalition
Street Address 1: 118 St. Mary's Street
City: Raleigh
State: North Carolina
Zip Code: 27605
Organization Type: Non-Profit
Is this organization the HMIS Lead Agency in more than one CoC? No
2C. Homeless Management Information System (HMIS) Bed Coverage

Instructions:

HMIS bed coverage measures the level of provider participation in a CoC's HMIS. Participation in HMIS is defined as the collection and reporting of client level data either through direct data entry into the HMIS or into an analytical database that includes HMIS data on an at least annual basis.

HMIS bed coverage is calculated by dividing the total number of year-round beds located in HMIS-participating programs by the total number of year-round beds in the Continuum of Care (CoC), after excluding beds in domestic violence (DV) programs. HMIS bed coverage rates must be calculated separately for emergency shelters, transitional housing, and permanent supportive housing.

The 2005 Violence Against Women Act (VAWA) Reauthorization bill restricts domestic violence provider participation in HMIS unless and until HUD completes a public notice and comment process. Until the notice and comment process is completed, HUD does not require nor expect domestic violence providers to participate in HMIS. HMIS bed coverage rates are calculated excluding domestic violence provider beds from the universe of potential beds.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Indicate the HMIS bed coverage rate (%) for each housing type within the CoC. If a particular housing type does not exist anywhere within the CoC, select "Housing type does not exist in CoC" from the drop-down menu.

<table>
<thead>
<tr>
<th>Housing Type</th>
<th>Coverage Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emergency Shelter (ES) Beds</td>
<td>86%+</td>
</tr>
<tr>
<td>Safe Haven (SH) Beds</td>
<td>Housing type does not exist in CoC</td>
</tr>
<tr>
<td>Transitional Housing (TH) Beds</td>
<td>86%+</td>
</tr>
<tr>
<td>Permanent Housing (PH) Beds</td>
<td>76-85%</td>
</tr>
</tbody>
</table>

How often does the CoC review or assess its HMIS bed coverage? At least Monthly

If bed coverage is 0-64%, describe the CoC's plan to increase this percentage during the next 12 months:
2D. Homeless Management Information System (HMIS) Data Quality

Instructions:

HMIS data quality refers to the extent that data recorded in an HMIS accurately reflects the extent of homelessness and homeless services in a local area. In order for HMIS to present accurate and consistent information on homelessness, it is critical that all HMIS have the best possible representation of reality as it relates to homeless people and the programs that serve them. Specifically, it should be a CoC’s goal to record the most accurate, consistent and timely information in order to draw reasonable conclusions about the extent of homelessness and the impact of homeless services in its local area. Answer the questions below related to the steps the CoC takes to ensure the quality of its data. In addition, CoCs will indicate their participation in the Annual Homelessness Assessment Report (AHAR) for 2010 and 2011 as well as whether or not they plan to contribute data to the Homelessness Pulse project in 2012.

For additional instructions, refer to the Exhibit 1 Detailed Instructions, which can be accessed on the left-hand menu bar.

Indicate the percentage of unduplicated client records with null or missing values on a day during the last ten days of January 2011.

<table>
<thead>
<tr>

</table>

How frequently does the CoC review the quality of program level data?  
At least Monthly

Describe the process, extent of assistance, and tools used to improve data quality for agencies participating in the HMIS (limit 750 characters):

Applicant: Wilmington/Brunswick, New Hanover, Pender Counties CoC  
Project: NC-506 COC Registration FY2011  
NC-506 COC_REG_2011_037490

Exhibit 1 2011  
Page 82  
10/31/2011
CHIN uses comparative reporting to assist agencies as they improve their client and program data. The primary report is the monthly Data Quality Report that provides agencies and our CoC with an overview of data completeness, utilization rates, and inventory. Additionally, agencies may request a report at any time during the month. Standardized ServicePoint reports are available continuously including: APR data, clients served, and clients not served. For agencies that need improvement, on-site and on-line data entry technical assistance and training are available at no charge to agencies. In extreme cases, contract data entry assistance is available for agencies to help them catch up on data entry.

Describe the existing policies and procedures used to ensure that valid program entry and exit dates are recorded in the HMIS (limit 750 characters):

A commitment to accurate data entry, including program entry and exit dates, begins when agencies sign their Agency Participation Agreement. In this contract, agencies agree to adhere to CHIN's Standard Operating Policies which explicitly cover all HUD required data elements. Agencies and end users are reminded of the policies again during certification training. Program entry and exit dates are covered specifically in all training materials. Program enrollment figures are included as elements on CHIN's monthly Data Quality Reports. CHIN staff can generate a report for participating agencies that lists all clients with their program entry and exit dates and indications of fields that remain incomplete.

Indicate which reports the CoC or subset of the CoC submitted usable data:
(Select all that apply)

- 2010 AHAR Supplemental Report on Homeless Veterans, 2010 AHAR

Indicate which reports the CoC or subset of the CoC plans to submit usable data:
(Select all that apply)

2E. Homeless Management Information System (HMIS) Data Usage

Instructions:

CoCs can use HMIS data for a variety of applications. These include, but are not limited to, using HMIS data to understand the characteristics and service needs of homeless people, to analyze how homeless people use services, and to evaluate program effectiveness and outcomes.

In this section, CoCs will indicate the frequency in which it engages in the following.

- Integrating or warehousing data to generate unduplicated counts
- Point-in-time count of sheltered persons
- Point-in-time count of unsheltered persons
- Measuring the performance of participating housing and service providers
- Using data for program management
- Integration of HMIS data with data from mainstream resources

For additional instructions, refer to the Exhibit 1 Detailed Instructions, which can be accessed on the left-hand menu bar.

Indicate the frequency in which the CoC uses HMIS data for each of the following:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Frequency</th>
</tr>
</thead>
<tbody>
<tr>
<td>Integrating or warehousing data to generate unduplicated</td>
<td>Never</td>
</tr>
<tr>
<td>counts:</td>
<td></td>

<td>At least Semi-annually</td>
</tr>
<tr>
<td>service providers:</td>
<td></td>
</tr>
<tr>
<td>Using data for program management:</td>
<td>At least Annually</td>
</tr>
<tr>
<td>Integration of HMIS data with data from mainstream</td>
<td>Never</td>
</tr>
<tr>
<td>resources:</td>
<td></td>
</tr>
</tbody>
</table>
2F. Homeless Management Information System (HMIS) Data and Technical Standards

Instructions:
In order to enable communities across the country to collect homeless services data consistent with a baseline set of privacy and security protections, HUD has published HMIS Data and Technical Standards. The standards ensure that every HMIS captures the information necessary to fulfill HUD reporting requirements while protecting the privacy and informational security of all homeless individuals.

Each CoC is responsible for ensuring compliance with the HMIS Data and Technical Standards. CoCs may do this by completing compliance assessments on a regular basis and through the development of an HMIS Policy and Procedures manual. In the questions below, CoCs are asked to indicate the frequency in which they complete compliance assessment.

For additional instructions, refer to the “Exhibit 1 Detailed Instructions” which can be accessed on the left-hand menu bar.

For each of the following HMIS privacy and security standards, indicate the frequency in which the CoC and/or HMIS Lead Agency complete a compliance assessment:

<table>
<thead>
<tr>
<th>Standard</th>
<th>Frequency</th>
</tr>
</thead>
<tbody>
<tr>
<td>* Unique user name and password</td>
<td>At least Annually</td>
</tr>
<tr>
<td>* Secure location for equipment</td>
<td>At least Annually</td>
</tr>
<tr>
<td>* Locking screen savers</td>
<td>At least Annually</td>
</tr>
<tr>
<td>* Virus protection with auto update</td>
<td>At least Annually</td>
</tr>
<tr>
<td>* Individual or network firewalls</td>
<td>At least Annually</td>
</tr>
<tr>
<td>* Restrictions on access to HMIS via public forums</td>
<td>At least Annually</td>
</tr>
<tr>
<td>* Compliance with HMIS Policy and Procedures manual</td>
<td>At least Annually</td>
</tr>
<tr>
<td>* Validation of off-site storage of HMIS data</td>
<td>At least Annually</td>
</tr>
</tbody>
</table>

How often does the CoC Lead Agency assess compliance with the HMIS Data and Technical Standards?  
At least Annually

How often does the CoC Lead Agency aggregate data to a central location (HMIS database or analytical database)?  
Never

Does the CoC have an HMIS Policy and Procedures manual? Yes

If 'Yes' indicate date of last review or update by CoC: 09/12/2011

If 'No' indicate when development of manual will be completed (mm/dd/yyyy):
2G. Homeless Management Information System (HMIS) Training

Instructions:
Providing regular training opportunities for homeless assistance providers that are participating in a local HMIS is a way that CoCs can ensure compliance with the HMIS Data and Technical Standards. In the section below, CoCs will indicate how frequently they provide certain types of training to HMIS participating providers.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Indicate the frequency in which the CoC or HMIS Lead Agency offers each of the following training activities:

<table>
<thead>
<tr>
<th>Training Activity</th>
<th>Frequency</th>
</tr>
</thead>
<tbody>
<tr>
<td>Privacy/Ethics training</td>
<td>At least Monthly</td>
</tr>
<tr>
<td>Data Security training</td>
<td>At least Monthly</td>
</tr>
<tr>
<td>Data Quality training</td>
<td>At least Monthly</td>
</tr>
<tr>
<td>Using Data Locally</td>
<td>At least Quarterly</td>
</tr>
<tr>
<td>Using HMIS data for assessing program performance</td>
<td>At least Semi-annually</td>
</tr>
<tr>
<td>Basic computer skills training</td>
<td>Never</td>
</tr>
<tr>
<td>HMIS software training</td>
<td>At least Monthly</td>
</tr>
</tbody>
</table>
2H. Continuum of Care (CoC) Sheltered Homeless Population & Subpopulation: Point-In-Time (PIT) Count

Instructions:
The purpose of the point-in-time count is to further understand the number and characteristics of people sleeping on the streets, including places not meant for human habitation, emergency shelters, and transitional housing. Although CoCs are only required to conduct a point-in-time count every two years, HUD strongly encourages CoCs to conduct a point-in-time count annually.

CoCs are to indicate how frequently they will conduct a point-in-time count and what percentage of their homeless service providers participated. CoCs will also describe if there was an increase, decrease, or no change between the most recent point-in-time count and the one prior. CoCs are to indicate in the narrative which years are being compared.

How frequently does the CoC conduct a point-in-time count? annually (every year)

*Indicate the date of the most recent point-in-time count (mm/dd/yyyy): 01/26/2011

If the CoC conducted the point-in-time count outside the last 10 days in January, was a waiver from HUD obtained prior to January 19, 2011? No

Did the CoC submit the point-in-time count data in HDX by May 31, 2011? Yes

If no, briefly explain why the point-in-time data was not submitted by May 31, 2011 (limit 750 characters).

Enter the date in which the CoC plans to conduct its next point-in-time count: 01/25/2012

(mm/dd/yyyy)
Indicate the percentage of homeless service providers supplying population and subpopulation data for the point-in-time count that was collected via survey, interview, and/or HMIS.

- **Emergency Shelter**: 100%
- **Transitional Housing**: 100%

Comparing the most recent point-in-time count to the previous point-in-time count, describe any factors that may have resulted in an increase, decrease, or no change in both the sheltered and unsheltered population counts (limit 1500 characters).

The continued lack of job opportunities and economic instability lead to increases in sheltered and unsheltered families. Discontinuing the TBRA program and lack of Section 8 and public housing through the Housing Authority meant less affordable housing for low income families. HPRP prevention funds brought about drops in unsheltered and sheltered single adults. There was an increase in single adults utilizing permanent supportive housing. The number of chronically homeless unsheltered adults increased 75%. The increase in this subpopulation reflects that chronically homeless adults are more difficult to house than those newer to homelessness because of the multiple complex factors contributing to their continued homelessness. There was a drop in sheltered chronically homeless, which is a result of the SOAR program helping those with mental illness obtain disability benefits and move to housing. The number of people going to shelter from prison and the behavioral health system has decreased. There has been an increased effort to coordinate discharge planning, which has resulted in discharge planners being more educated about the resources available for housing these individuals and creating more appropriate discharge plans. There was a reduction in the number of veterans utilizing shelter and transitional housing. This is due to the increased number of HUD-VASH vouchers being used.
21. Continuum of Care (CoC) Sheltered Homeless Population & Subpopulations: Methods

Instructions:
Accuracy of the data reported in point-in-time counts is vital. Data produced from these counts must be based on reliable methods and not on "guesstimates." CoCs may use one or more method(s) to count sheltered homeless persons. This form asks CoCs to identify and describe which method(s) were used to conduct the point-in-time counts. The description should demonstrate how the method(s) was used to produce an accurate count.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Indicate the method(s) used to count sheltered homeless persons during the last point-in-time count:
(Select all that apply):

Survey Providers: X
HMIS: X
Extrapolation: X
Other: X

If Other, specify:
Continuum of Care Grant Committee reviewed all collected data and created an unduplicated count.

Describe the methods used by the CoC, as indicated by the above selected method(s), to collect data on the sheltered homeless population during the most recent point-in-time count. Response should indicate how the method(s) selected above were used in order to produce accurate data (limit 1500 characters):

All sheltered adults and unaccompanied youth were interviewed using a survey to gather data. The PIT process was advertised and explained in advance to encourage the most participation among sheltered adults and youth. The CoC used survey data, HMIS and individual client records to gather subpopulation information on sheltered homeless persons. Providers calculated the percentage of clients belonging to each subpopulation based on survey results and their knowledge of their client population as a whole. Surveys and extrapolation techniques were applied to describe sub-populations of unsheltered homeless people.
2J. Continuum of Care (CoC) Sheltered Homeless Population and Subpopulation: Data Collection

Instructions:

CoCs are required to produce data on seven subpopulations. These subpopulations are: chronically homeless, severely mentally ill, chronic substance abuse, veterans, persons with HIV/AIDS, victims of domestic violence, and unaccompanied youth (under 18). Subpopulation data is required for sheltered homeless persons and, with the exception of chronically homeless and veterans, optional for unsheltered persons. Sheltered chronically homeless persons are those living in emergency shelters only.

The definition of chronically homeless persons is an unaccompanied individual with a disabling condition, or an adult member of a family with a disabling condition, who meets all other requirements for chronic homeless designation. CoCs may use a variety of methods to collect subpopulation information on sheltered homeless persons and may utilize more than one in order to produce the most accurate data. This form asks CoCs to identify and describe which method(s) were used to gather subpopulation information for sheltered populations during the most recent point-in-time count. The description should demonstrate how the method(s) was used to produce an accurate count.

For additional instructions, refer to the Exhibit 1 Detailed Instructions which can be accessed on the left-hand menu bar.

Indicate the method(s) used to gather and calculate subpopulation data on sheltered homeless persons (select all that apply):

- HMIS [X]
- HMIS plus extrapolation:
- Sample of PIT interviews plus extrapolation:
- Sample strategy:
- Provider expertise [X]
- Interviews [X]
- Non-HMIS client level information [X]
- None:
- Other:

If Other, specify:

Describe the methods used by the CoC, based on the selections above, to collect data on the sheltered homeless subpopulations during the most recent point-in-time count. Response should indicate how the method(s) selected above were used in order to produce accurate data on all of the sheltered subpopulations (limit 1500 characters):
All willing sheltered adults and unaccompanied youth were interviewed by program staff and/or trained volunteers using a survey to gather general demographic and subpopulation information. Providers used individual client records to provide (where missing) or verify subpopulation data for each adult and unaccompanied youth. Providers calculated the percentage of clients belonging to each subpopulation based on their knowledge of their client population as a whole. CoC also used HMIS data to gather subpopulation information on sheltered homeless persons.
2K. Continuum of Care (CoC) Sheltered Homeless Population and Subpopulation: Data Quality

Instructions:
The data collected during point-in-time counts is vital for CoCs and HUD. Communities need accurate data to determine the size and scope of homelessness at the local level to plan services and programs that will appropriately address local needs and measure progress in addressing homelessness. HUD needs accurate data to understand the extent and nature of homelessness throughout the country and to provide Congress and OMB with information regarding services provided, gaps in service, performance, and funding decisions. It is vital that the quality of data reported accurate and of high quality. CoCs may undertake once or more actions to improve the quality of the sheltered population data.

For additional instructions, refer to the Exhibit 1 Detailed Instructions which can be accessed on the left-hand menu bar.

Indicate the method(s) used to verify the data quality of sheltered homeless persons:
(select all that apply)

Instructions: X  
Training: X  
Remind/Follow-up X  
HMIS: X  
Non-HMIS de-duplication techniques: X  
None:  
Other:  

If Other, specify:

If selected, describe the non-HMIS de-duplication techniques used by the CoC to ensure the data quality of the sheltered persons count (limit 1000 characters).

Individual shelter staff and the CoC Committee check records of clients who were served at day soup kitchens and services centers with numbers collected by night-only shelters to avoid duplication. Also, programs operating nighttime services such as overnight shelters ask incoming clients if they have been counted earlier in the day when receiving a meal or medical attention at another shelter location.

Describe the methods used by the CoC, based on the selections above, to collect data on the sheltered homeless subpopulations during the most recent point-in-time count. Response is to indicate how the method(s) selected above were used in order to produce accurate data on all of the sheltered subpopulations (limit 1500 characters):

Trained volunteers and shelter staff survey clients on subpopulation data. This is checked against HMIS data and client files on subpopulation information to verify accuracy.
2L. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation: Methods

Instructions:

Accuracy of the data reported in point-in-time counts is vital. Data produced from these counts must be based on reliable methods and not on "guesstimates." CoCs may use one or more methods to count unsheltered homeless persons. This form asks CoCs to identify which method(s) they use to conduct their point-in-time counts.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Indicate the method(s) used during the most recent point-in-time count of unsheltered homeless persons:
(select all that apply)

- Public places count: X
- Public places count with interviews: X
- Service-based count: X
- HMIS: X
- Other:

If Other, specify:

Describe the method(s) used by the CoC based on the selections above, to count unsheltered homeless populations during the most recent point-in-time count. Response should indicate how the method(s) selected above were used in order to obtain accurate data (limit 1500 characters).

Obtaining accurate data in the point-in-time count of the unsheltered homeless population requires participating agencies to incorporate various methodologies. These methods include (but are not limited to): trained personnel going to 'well-known' homeless encampments to physically count and calibrate the observed population, utilize standard interviews for participants to confirm and verify homeless status, data collection from participating service providers, and HMIS data which is confirmed and verified by the end-user as well as the COC as a whole.
2M. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation: Level of Coverage

Instructions:

CoCs may utilize several methods when counting unsheltered homeless persons. CoCs need to determine what area(s) they will go to in order to count this population. For example, CoCs may canvas an entire area or only those locations where homeless persons are known to sleep. CoCs are to indicate the level of coverage incorporated when conducting the unsheltered count.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Indicate where the CoC located the unsheltered homeless persons (level of coverage) that were counted in the last point-in-time count:

- A Combination of Locations

If Other, specify:

The level of coverage of the unsheltered homeless population is a combination of locations. Through on-going agency relationships within the COC, the reliability of identifying and locating the unsheltered homeless is significant. Our community shares information within the COC about our homeless populations. This may include identifying: new homeless encampments, shifting congregations of the homeless, or new service providers targeting specific homeless subpopulations.
2N. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation: Data Quality

Instructions:
The data collected during point-in-time counts is vital for CoCs and HUD. Communities need accurate data to determine the size and scope of homelessness at the local level to plan services and programs that will appropriately address local needs and measure progress in addressing homelessness. HUD needs accurate data to understand the extent and nature of homelessness throughout the country and to provide Congress and OMB with information regarding services provided, gaps in service, performance, and funding decisions. It is vital that the quality of data reported is accurate and of high quality. CoCs may undertake one or more actions to improve the quality of the sheltered population data.

All CoCs should engage in activities to reduce the occurrence of counting unsheltered persons more than once during the point-in-time count. The strategies are known as de-duplication techniques. De-duplication techniques should always be implemented when the point-in-time count extends beyond one night or takes place during the day at service locations used by homeless persons that may or may not use shelters. CoCs are to describe de-duplication techniques used in the point-in-time count. CoCs are also asked to describe outreach efforts to identify and engage homeless individuals and families.

For additional instructions, refer to the Exhibit 1 Detailed Instructions which can be accessed on the left-hand menu bar.

Indicate the steps taken by the CoC to ensure the quality of the data collected for the unsheltered population count:
(select all that apply)

- Training: X
- HMIS: X
- De-duplication techniques: X
- "Blitz" Count:
- Unique Identifier:
- Survey Question:
- Enumerator Observation:
- Other:

If Other, specify:

Describe the techniques, as selected above, used by the CoC to reduce the occurrence of counting unsheltered homeless persons more than once during the most recent point-in-time count (limit 1500 characters):

Continuum of Care Grant Committee reviewed all collected data and created an unduplicated count by conducting training(s) for PIT enumerators and used HMIS to check for duplicate information.
Describe the CoCs efforts to reduce the number of unsheltered homeless households with dependent children. Discussion should include the CoCs outreach plan (limit 1500 characters):

COC aids in creating a comprehensive system of care to reduce the number of unsheltered homeless households with dependent children by maximizing the resources that provide needed services, directing clients to appropriate living environments, and assessing their needs for additional supportive services. The PATH program outreach workers interact with unsheltered homeless individuals and families on a daily basis and connects them with shelters and other mainstream resources. Shelter managers also communicate vacancies in times of high occupancy, ensuring that those who seek shelter at a full facility are assisted in getting onto another facility with space available.

Describe the CoCs efforts to identify and engage persons that routinely sleep on the streets or other places not meant for human habitation (limit 1500 characters):

COC participating agencies identify and engage persons in need through various methods, including but not limited to: outreach, walk-ins, referrals, agency-sponsored events, establishing contact points, and community involvement. Multiple agencies with street outreach programs coordinate information and services to identify homeless camps and lone individuals in need of care. When unsheltered individuals or families are identified, agency staff inform PATH workers to ensure that effective outreach occurs. As described above, PATH workers seek out the unsheltered on a daily basis and connect them to needed resources.
Objective 1: Create new permanent housing beds for chronically homeless persons.

Instructions:

Ending chronic homelessness continues to be a HUD priority. CoCs can do this by creating new permanent housing beds that are specifically designated for this population. In the FY2010 NOFA, chronically homeless persons were defined as an unaccompanied homeless individual with a disabling condition, or a family where at least one adult member had a disabling condition, who has either been continuously homeless for at least a year OR has had at least four episodes of homelessness in the past three (3) years.

CoCs are to describe the short-term and long-term plans for creating new permanent housing beds for chronically homeless persons who meet the definition of chronically homeless. CoCs will also indicate the current number of permanent housing beds designated for chronically homeless persons. This number should match the number of beds reported in the FY2011 Housing Inventory Count (HIC) and enter into the Homeless Data Exchange (HDX). CoCs will then enter the number of permanent housing beds expected to be in place in 12 months, 5 years, and 10 years. These future estimates should be based on the definition of chronically homeless.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

How many permanent housing beds are currently in place for chronically homeless persons?

In 12 months, how many permanent housing beds designated for chronically homeless persons are planned and will be available for occupancy?

In 5 years, how many permanent housing beds designated for chronically homeless persons are planned and will be available for occupancy?

In 10 years, how many permanent housing beds designated for chronically homeless persons are planned and will be available for occupancy?

Describe the CoC's short-term (12 month) plan to create new permanent housing beds for persons who meet HUD's definition of chronically homeless (limit 1000 characters):
The CoC will continue working with housing agencies, target unit program, landlords, housing authorities, emergency shelters, transitional housing shelter, permanent supportive housing in maintaining our referral system and encouraging the creation of new permanent housing beds. We are pursuing the Permanent Supportive Housing Bonus, along with Non-Elderly Disabled Vouchers.

Describe the CoC's long-term (10 year) plan to create new permanent housing beds for persons who meet HUD's definition of chronically homeless (limit 1000 characters):

Our CoC has been very active in its pursuit of additional funding for permanent housing. We continue to use Samaritan Bonus, NC Housing Finance Agency, Tax Credit projects for private developers, the 400 initiative and have had success in building this resource. Additionally, we have expanded access to new resources in recent years: our 10 year plan to end chronic homelessness project, VASH vouchers, and our lead agency Southeastern Center Area Authority will stay informed of community, state and federal opportunities to expand Permanent Housing through their relationship with the local Housing Authority, and through housing specialist searching grant opportunities.
3A. Continuum of Care (CoC) Strategic Planning

Objectives

Objective 2: Increase the percentage of participants remaining in CoC funded permanent housing projects for at least six months to 77 percent or more.

Instructions:

Increasing self-sufficiency and stability of permanent housing program participants is an important outcome measurement of HUD’s homeless assistance programs. Each SHP-PH and S+C project is expected to report the percentage of participants remaining in permanent housing for more than six months on its Annual Performance Report (APR). CoCs then use this data from all of its permanent housing projects to report on the overall CoC performance on form 4C. Continuum of Care (CoC) Housing Performance.

In this section, CoCs are to describe short-term and long-term plans for increasing the percentage of participants remaining in all of its CoC-funded permanent housing projects (SHP-PH or S+C) to at least 77 percent. CoCs will indicate the current percentage of participants remaining in these projects, as indicted on form 4C, as well as the expected percentage in 12 months, 5 years, and 10 years. CoCs that do not have any CoC-funded permanent housing projects (SHP-PH or S+C) for which an APR was required should indicate this by entering “0” in the numeric fields and note in the narratives.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

What is the current percentage of participants remaining in CoC-funded permanent housing projects for at least six months?

73

In 12 months, what percentage of participants will have remained in CoC-funded permanent housing projects for at least six months?

77

In 5 years, what percentage of participants will have remained in CoC-funded permanent housing projects for at least six months?

82

In 10 years, what percentage of participants will have remained in CoC-funded permanent housing projects for at least six months?

90

Describe the CoCs short-term (12 month) plan to increase the percentage of participants remaining in CoC-funded permanent housing projects for at least six months to 77 percent or higher (limit 1000 characters):

Applicant: Wilmington/Brunswick, New Hanover, Pender Counties CoC
Project: NC-506 COC Registration FY2011
The Hopewood and Driftwood beds which give preference to Chronically Homeless, but do not exclusively serve that population, are not being counted this year.

The CoC provides supportive services to those clients who are struggling with stabilization in housing. Providers refer to substance abuse counseling, individual counseling, connect with SOAR case worker to apply for disability, connect to heating assistance program, crisis intervention and prevention, monitoring of client placement, food stamps etc. The CoC plans to utilize the Tri-HIC to Increase PH providers' education on supportive services available in the community to assist clients with stabilization and utilize the CoC lead agency, as the local management entity of services to chronically homeless individuals, to keep the providers informed. Southeastern Center will be collaborating with local landlords to ensure affordable and accessible permanent supportive housing for consumers in our target population.

Describe the CoCs long-term (10 year) plan to increase the percentage of participants remaining in CoC-funded permanent housing projects for at least six months to 77 percent or higher (limit 1000 characters):

Southeastern Center and providers created Wellness Management Recovery to increase cognitive ability. Wilmington Housing Authority provided 25 VASH vouchers and 50 NED vouchers. The 10YP’s HPRP grant stabilized 621 clients in 219 households through utility and rental assistance. The CoC and 10YP supported two applications for state-funded 8-unit developments of permanent supportive housing. Both applications were funded by the NC Housing Finance Agency I-400 program and 16 new housing units will come online 12/01/2011. The 10YP SOAR caseworker and providers are referring clients as applicants for that new housing. The Interagency Council advocacy committee formed Circles of Support and Peer Support Training as an effort to support dual diagnosed individuals. The 10YP manages 7 Circles of Support, providing mentor services to previously homeless clients as extensions of provider caseworkers. Additional recruitment and training is ongoing to expand the number of functioning circles.
3A. Continuum of Care (CoC) Strategic Planning

Objectives

Objective 3: Increase the percentage of participants in CoC-funded transitional housing that move into permanent housing to 65 percent or more.

Instructions:

The transitional housing objective is to help homeless individuals and families obtain permanent housing and self-sufficiency. Each SHP-TH project is expected to report the percentage of participants moving to permanent housing on its Annual Performance Report (APR). CoCs then use this data from all of the CoC-funded transitional housing projects to report on the overall CoC performance on form 4C. Continuum of Care (CoC) Housing Performance.

In this section, CoCs are to describe short-term and long-term plans for increasing the percentage of transitional housing participants who move from SHP-TH projects into permanent housing to at least 65 percent or more. CoCs will indicate the current percentage of SHP-TH project participants moving into permanent housing as indicated on form 4C. as well as the expected percentage in 12 months, 5 years, and 10 years. CoCs that do not have any CoC funded transitional housing projects (SHP-TH) for which an APR was required should enter "0" in the numeric fields below and note in the narratives.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

What is the current percentage of participants in CoC-funded transitional housing projects will have moved to permanent housing? 84

In 12 months, what percentage of participants in CoC-funded transitional housing projects will have moved to permanent housing? 86

In 5 years, what percentage of participants in CoC-funded transitional housing projects will have moved to permanent housing? 88

In 10 years, what percentage of participants in CoC-funded transitional housing projects will have moved to permanent housing? 90

Describe the CoCs short-term (12 month) plan to increase the percentage of participants in CoC-funded transitional housing projects that move to permanent housing to 65 percent or more (limit 1000 characters).
Our CoC's percentage of persons transitioning into PH exceeds the stated objective of 65%. We will continue to utilize section 8 vouchers for persons with disabilities, the new VASH vouchers for veterans, and the lead agency received an award from the 400 initiative to add 16 additional PH beds to our community's 14 beds that can serve those leaving a transitional housing program. Accordingly, Wilmington Housing Authority has begun construction on eight units at Jervay Loop that will have project-based vouchers. In addition, RHA Health Services is completing construction of eight units of permanent supportive housing in December, supported by NC Key vouchers.

Describe the CoCs long-term (10 year) plan to increase the percentage of participants in CoC-funded transitional housing projects that move to permanent housing to 65 percent or more (limit 1000 characters):

The community will continue collaboration to develop new permanent housing. The COC, 10YP and Affordable Housing Coalition (AHC) are integrated and in alignment with the goals of Opening Doors. The 10 YP added the county veterans services officer, the school district's McKinney Vento Coordinator and the AHC chair as executive board members. The 10 YP SOAR program secured awards for 52 clients in its first 18 months, providing $200k in retro benefits and establishing ongoing annual income of $475k. SOAR reimbursed the hospital $178k and secured ongoing funding from that source as an earlier grand was depleted. We access and utilize community and mainstream resources through SOAR and the Benefits Bank to connect transitional housing residents with the resources needed to secure and maintain permanent housing. Increased availability of affordable housing units available will enable the CoC to increase the number of participants moving into permanent housing.
3A. Continuum of Care (CoC) Strategic Planning

Objectives

Objective 4: Increase percentage of participants in all CoC-funded projects that are employed at program exit to 20 percent or more.

Instructions:

Employment is a critical step for homeless persons to achieve greater self-sufficiency, which represents an important outcome that is reflected both in participants’ lives and the health of the community. Each CoC-funded project (excluding HMIS dedicated only projects) is expected to report the percentage of participants employed at exit on its Annual Performance Report (APR). CoCs then use this data from all of its non-HMIS projects to report on the overall CoC performance on form 4D. Continuum of Care (CoC) Enrollment in Mainstream Programs and Employment Information.

In this section, CoCs are to describe short-term and long-term plans for increasing the percentage of all CoC-funded program participants that are employed at program exit to 20 percent or more. CoCs will indicate the current percentage of project participants that are employed at program exit, as reported on 4D, as well as the expected percentage in 12 months, 5 years, and 10 years. CoCs that do not have any CoC-funded non-HMIS dedicated projects (SHP-PH, SHP-TH, SHP-SH, SHP-SSO, or Sac TRA/SRA/PRA/SRO) for which an APR was required should enter “0” in the numeric fields below and note in the narratives.

For additional instructions, refer to the “Exhibit 1 Detailed Instructions” which can be accessed on the left-hand menu bar.

What is the current percentage of participants in all CoC-funded projects that are employed at program exit? 27

In 12 months, what percentage of participants in all CoC-funded projects will be employed at program exit? 27

In 5 years, what percentage of participants in all CoC-funded projects will be employed at program exit? 29

In 10 years, what percentage of participants in all CoC-funded projects will be employed at program exit? 31

Describe the CoCs short-term (12 month) plan to increase the percentage of participants in all CoC-funded projects that are employed at program exit to 20 percent or more (limit 1000 characters).
Our CoC has been affected by the national economic downturn. PH and TH programs continue to use the Employment Security Commission, Vocational Rehabilitation, and Phoenix Employment Ministry to assist our consumers. Although we saw a slight increase in employment from last year, we are hesitant to over predict potential employment over the next several years. We are increasing our partnership with the community college adult education program that provides free certificate programs to low income persons in an effort to increase their marketability. Southeastern Center has committed to increase the number of providers establishing opportunities for supportive employment.

Describe the CoCs long-term (10 year) plan to increase the percentage of participants in all CoC-funded projects who are employed at program exit to 20 percent or more (limit to 1000 characters):

We have historically had success with the employment agencies available to our clients so we plan to continue those relationships while at the same time increasing the use of the community college and their adult education programs to make our clients more marketable through the use of their certification programs. Also Southeastern Center has created a new position (Information and Communication Specialist) dedicated to the creation of memoranda of agreements and irrevocable letters of support from various service agencies, i.e. council of governments, Blue Ribbon Commission and other workforce collaborations.
Objective 5: Decrease the number of homeless households with children.

Instructions:

Ending homelessness among households with children, particularly for those households living on the streets or other places not meant for human habitation, is an important HUD priority. CoCs can accomplish this goal by creating new beds and/or providing additional supportive services for this population.

In this section, CoCs are to describe short-term and long-term plans for decreasing the number of homeless households with children, particularly those households that are living on the streets or other places not meant for human habitation. CoCs will indicate the current total number of households with children that was reported on their most recent point-in-time count. CoCs will also enter the total number of homeless households with children they expect to report on in the next 12 months, 5 years, and 10 years.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

What is the current total number of homeless households with children as reported on the most recent point-in-time count? 84

In 12 months, what will be the total number of homeless households with children? 79

In 5 years, what will be the total number of homeless households with children? 40

In 10 years, what will be the total number of homeless households with children? 10

Describe the CoCs short-term (12 month) plan to decrease the number of homeless households with children (limit 1000 characters):

Our CoC was awarded Homelessness Prevention and Rapid Re-housing Program (HPRP) funds through an application made by the United Way-led 10 Year Plan a fully collaborating component of the CoC. These funds have been used to stabilize low-income rental and homeless households in permanent housing through temporary rental assistance and utility payments, moving assistance, rental unit and utility deposits, temporary storage of household goods, credit repair, and motel vouchers for up to 30 days when permanent housing has been identified. The HPRP funds can be used for families and individuals that can be stabilized in both subsidized (with restrictions) and unsubsidized rental housing within 18 months or less. During this intervention clients have been introduced to available supportive services in their area. Referrals have also been made for wrap-around community resources.
Describe the CoCs long-term (10 year) plan to decrease the number of homeless households with children (limit 1000 characters):

HPRP is a three year funding opportunity led by the 10 Year Plan to End Chronic Homelessness. Currently ending the second year of the grant, HPRP has stabilized more than 225 households in rental housing and utilized more than $975,000 in federal HPRP funds. Through the Cape Fear HPRP Partnership, the grant has served all three CoC counties. The project's grant draw down exceeded state and federal expectations and the program was closed to new intake in May 2011. HPRP continues to serve approximately 20 established client households. The 10 YP hopes to fund HPRP through the Emergency Solutions Grant Program in the future. In coordination with the Veterans Administration, we have received 40 HUD VASH vouchers, about half of which are being used for families. The VA expects growth of this program and an increase in beds for this area, with a priority for female veterans with children.
3B. Continuum of Care (CoC) Discharge Planning

Instructions:
The McKinney-Vento Act requires that State and local governments have policies and protocols in place to ensure that persons being discharged from publicly-funded institutions or systems of care are not discharged immediately into homelessness. To the maximum extent practicable, Continuums of Care should demonstrate how they are coordinating with and/or assisting in State or local discharge planning efforts to ensure that discharged persons are not released directly to the streets, emergency homeless shelters, or other McKinney-Vento homeless assistance programs (SHP, S+C, SRO). For each system of care, CoCs are to address the following:

What: Describe the efforts that the CoC has taken to ensure that persons are not routinely discharged into homelessness. In the case of Foster Care, CoCs should specifically address the discharge of youth ageing out from the foster care system. If there is a State mandate that requires publicly funded institutions to ensure appropriate housing placement, that does not include homelessness, indicate this in the narrative.

Where: Indicate where persons routinely go upon discharge. Response should identify alternative housing options that are available for discharged persons other than the streets, emergency homeless shelters, and/or McKinney-Vento homeless assistance programs.

Who: Identify stakeholders and/or collaborating agencies that are responsible for ensuring that persons being discharged from system of care are not routinely discharged into homelessness.

For additional instructions, refer to the “Exhibit 1 Detailed Instructions” which can be accessed on the left-hand menu bar.

For each system of care identified below describe the CoC’s efforts in coordinating with and/or assisting in the development of local discharge planning policies that ensure persons are not routinely discharged into homelessness, including the streets, emergency homeless shelters, or other McKinney-Vento homeless assistance housing programs. Review ALL instructions to ensure that each narrative is fully responsive (limit 1500 characters).

Foster Care (Youth Aging Out):
Southeastern Center MH/DD/SA (SEC) has a Care Coordinator for youth services that work collaboratively with other community agencies (DSS, Level III Group Homes and advocates for children) to ensure that prior to a child’s discharge date that resources are in place to ensure that they are not discharged to the streets.

One source of funding designated for foster children aging out of care is the LINK program. The New Hanover County Department of Social Services provides assistance for security deposits and the first month’s rent.

In addition, New Hanover County has been awarded 50 Family Unification Vouchers to serve families in the Child Protective Services system with subsidized rental assistance to prevent children from entering into the foster care system.
Health Care:

The 10 Year Plan’s SOAR Project seeks to address medical discharge planning through identification of SOAR allowance-probable clients by hospital admissions and service providers, establishment of SSI/SSDI benefit entitlement and Medicaid/Medicare eligibility. The coupling of a client to a caseworker that Medicaid entitlement brings increases the likelihood of proper discharge planning. In addition, the Continuum of Care - through the 10 Year Plan - is currently launching an initiative to develop a plan for establishing and operating a modest homeless respite care facility. That respite care facility, when operational, will further increase the likelihood that homeless clients receive appropriate discharges.

Currently, the COC partners with agency staff like the Southeastern Center's Care Coordinators and Housing Specialist, 10 YR Plan and Hospital Social Workers to provide patients with resources located through the Cape Fear Housing and SEC Housing website (transitional housing, market rate housing or boarding homes) to escape discharge into the streets.

Mental Health:

During the initial entry of a consumer to a state facility, an evaluation of the consumer being served for MH/DD/SA is completed which include Housing needs. If it has been determined that a consumer is in need of housing, the social worker, SEC care coordinator and housing specialist work together throughout the entire length of treatment to provide the consumer with possible housing options before the discharge date. Care Coordinators attend weekly treatment team meetings with facility Social Workers to map the progress and identify additional needs of our consumers.

Southeastern has care coordinators that outreach consumers for mental health facilities (Cherry Hospital, youth facilities and the local Behavioral Health facilities), substance abuse (Walter B. Jones State Facility), consumers with Development Disabilities (Caswell Center) and a Jail Liaison, who assist consumers that are mentally ill and has a release date from the prison system. The Southeastern Center MH/DD/SA facilitates a bi-monthly Permanent Supportive Housing meetings that link together mental health providers, case managers, DHHS staff from the Targeting Unit Program, local housing authorities and staff from the various projects of the local Continuum of Care together to access available resources for permanent housing, project and tenant based assistance or Section 8 Vouchers.

The Southeastern Center's Housing Specialist maintains a housing website at (www.secmh.org.)

Corrections:
The Re-Entry Taskforce, an effort spearheaded by the CoC partnered with LINC, Inc., is a coalition of agencies that provide services to former inmates recently released from incarceration. Represented organizations include New Hanover County Drug and DWI Court programs, the Wilmington Sheriff's Department, NC Corrections, Southeastern Center for Mental Health, United Way of the Cape Fear Area (10YP), Youth Build, The Wilmington Housing Authority, and Cape Fear Community College. The Taskforce focuses on providing resources and opportunities to facilitate successful and productive community reintegration. It also serves as a forum for problem-solving concerns and challenges, including employment and housing issues, as well as strategies to reduce recidivism.
3C. Continuum of Care (CoC) Coordination

Instructions:
A CoC should regularly assess its local homeless assistance system and identify gaps and unmet needs. CoCs can improve their communities through long-term strategic planning. CoCs are encouraged to establish specific goals and implement short-term action steps. Because of the complexity of existing homeless systems and the need to coordinate multiple funding sources and priorities, there are often multiple long-term strategic planning groups. It is imperative for CoCs to coordinate, as appropriate, with each of these existing strategic planning groups to meet local needs.

For additional instructions, refer to the Exhibit 1 Detailed Instructions which can be accessed on the left-hand menu bar.

Does the Consolidated Plan for the jurisdiction(s) that make up the CoC include the CoC strategic plan goals for addressing homelessness?  
Yes

If yes, list the goals in the CoC strategic plan that are included in the Consolidated Plan:
--Continue to support the efforts of agencies such as the Tri-County Homeless Interagency Council and include the councils recommendations in the decision-making process for expending CDBG and HOME funds on homeless-related programs
--Create transitional or permanent housing units
--Create additional emergency shelter beds with supportive services.
--Support the efforts of private developers who are building affordable housing and encourage them to create partnerships with agencies that provide supportive housing services to the homeless population.

Describe how the CoC is participating in or coordinating with the local Homeless Prevention and Rapid re-housing Program (HPRP) initiative, as indicated in the substantial amendment to the Consolidated Plan 2008 Action Plan (1500 character limit):
NC-506 was instrumental in the coordination and subsequent award of the $1.2 million Cape Fear Area HPRP grant. All of the CoC members collaborated and agreed on the workflow process and voted on the Lead Applicant and Partner Agencies. Additionally, several of the 506 CoC members are either direct partner agencies providing the homelessness prevention and rapid re-housing services or are providing the wrap-around services necessary to fully move HPRP clients out of crisis and into stable housing.

Housing homeless people and preventing homelessness among nonhomeless people, particularly those with special needs or extremely low incomes, are among the Wilmington/ Brunswick, New Hanover, Pender Counties’ HPRP highest priorities. NC-506 CoC identifies the high-priority populations in our area to be:
1) homeless families and individuals
2) housed persons at imminent risk of becoming homeless
3) urban renters earning 0-30% of MFI
4) rural renters earning 0-50% of MFI

All the activities the NC-506 intends to accomplish with HPRP funds are aligned with the Consolidated Plan and include the following: short and medium term rental assistance, utility deposits and payments, rental deposits, moving expense, storage fees, motel/ hotel vouchers and credit repair.

Describe how the CoC is participating in or coordinating with any of the following: Neighborhood Stabilization Program (NSP) initiative, HUD VASH, or other HUD managed American Reinvestment and Recovery Act programs (2500 character limit)?

The NC-506 area has the following ARRA funded programs: VASH and Disability Vouchers; Tax Credit Assistance Programs; Weatherization; Community Development Block Grant; Homelessness Prevention & Rapid Re-Housing; Food Stamps, Social Security, Work Force investment, DOT Projects; Transit; School Bonds; Energy Conservation; Education Stabilization; Justice and Public Safety; Clean Water; Drinking Water; School Lunch Equipment.

Representatives from ARRA funded agencies regularly attend and present relevant information at the monthly Homeless Interagency Council meetings. Additionally, Cape Fear Area HPRP Case Managers and NC-506 agencies are specifically trained on the appropriate method of referring clients to suitable local ARRA funded programs.

Indicate if the CoC has established policies that require homeless assistance providers to ensure all children are enrolled in school and connected to appropriate services within the community?  
Yes

If yes, please describe the established policies that are in currently in place.

The policy of the CoC is to adhere to McKinney Vento requirements. Each CoC agency has participated in appropriate training provided by the New Hanover County School District’s McKinney Vento Coordinator.
Describe the CoC's efforts to collaborate with local education agencies to assist in the identification of homeless families and inform them of their eligibility for McKinney-Vento education services. (limit 1500 characters)

The CoC, in attempt to align itself more closely with Opening Doors, has added the McKinney-Vento/HEARTH Act Coordinator from the area’s largest school district to the 10 Year Plan Executive Board. That addition provides a direct mechanism for two-way communication between the area’s school district homelessness interests and the 10 YP’s policy makers.

Describe how the CoC has, and will continue, to consider the educational needs of children when families are placed in emergency or transitional shelter. (limit 1500 characters)

The CoC's Homeless Student Task Force coordinates policies and procedures for providers with the New Hanover County School District's McKinney Vento coordinator. All children and their parents/guardians staying in shelters and transitional housing are connected with the McKinney Vento coordinator to learn what resources are available through both the school district and providers.

Describe the CoC's current efforts to combat homelessness among veterans. Narrative should identify organizations that are currently serving this population, how this effort is consistent with CoC strategic plan goals, and how the CoC plans to address this issue in the future. (limit 1500 characters)

In order to further align the 10 YP with Opening Doors, the Veterans Services Officer of the most populated county has been added as a 10 Year Plan executive board member. In addition, the 10 YP established a Homeless Veterans Strategy Team that will meet quarterly to address veterans issues. CoC and 10YP leadership continues to participate in DVA training and informational activities held locally and at the Fayetteville, NC VSN. The CoC fully participates in the local veterans stand down annually and the DVA Homeless Veterans outreach coordinator is a regular participant of CoC monthly meetings. The CoC welcomes the ground-breaking of a new 100,000 square foot DVA veterans clinic currently under construction on the grounds of ILM, Wilmington's international airport.

Describe the CoC's current efforts to address the youth homeless population. Narrative should identify organizations that are currently serving this population, how this effort is consistent with the CoC strategic plan goals, and how the CoC plans to continue to address this issue in the future (limit 1500 characters):

CoC partner Coastal Horizons operates a shelter for homeless and at-risk youth. Shelter objectives range from eventual reunification with parents and/or family to placement in foster care, depending on differing circumstances. In addition, children who are aging out of foster care can enlist resources from the Link Program at the New Hanover County Department of Social Services to assist with security deposits and first month’s rent. The HPRP program also identifies children aging out of foster as a priority population for rental and utility assistance.
3D. Hold Harmless Need (HHN) Reallocation

Instructions:
Continuum of Care (CoC) Hold Harmless Need (HHN) Reallocation is a process whereby an eligible CoC may reallocate funds in whole or in part from SHP renewal projects to create one or more new permanent housing projects and/or a new dedicated HMIS project. A CoC is eligible to use HHN Reallocation if its Final Pro Rata Need (FPRN) is based on its HHN amount or if it is a newly approved merged CoC that used the Hold Harmless Merger process during the FY2011 CoC Registration process.

The HHN Reallocation process allows eligible CoCs to fund new permanent housing or dedicated HMIS projects by transferring all or part of funds from existing SHP grants that are eligible for renewal in FY2011 into a new project. New reallocated permanent housing projects may apply under SHP (one, two, or three years), S+C (five or ten years), and Section 8 Moderate Rehabilitation (ten years). New reallocated HMIS projects may be for one, two, or three years.

A CoC whose FPRN is based on its Preliminary Pro Rata Need (PPRN) is not eligible to reallocate existing projects through this process and should therefore always select "No" to the questions below.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Does the CoC want to reallocate funds from one or more expiring SHP grant(s) into one or more new permanent housing or dedicated HMIS project(s)?
No

Is the CoCs Final Pro Rata Need (FPRN) based on either its Hold Harmless Need (HHN) amount or the Hold Harmless Merger process?
Yes

CoCs who are in PPRN status are not eligible to reallocate projects through the HHN reallocation process.
4A. Continuum of Care (CoC) 2010 Achievements

Instructions:
In the FY2010 CoC application, CoCs were asked to propose numeric achievements for each of HUD's five national objectives related to ending chronic homelessness and moving individuals and families to permanent housing and self-sufficiency through employment. CoCs will report on their actual accomplishments since FY2010 versus the proposed accomplishments.

In the column labeled FY2010 Proposed Numeric Achievement enter the number of beds, percentage, or number of households that were entered in the FY2010 application for the applicable objective. In the column labeled Actual Numeric Achievement enter the actual number of beds, percentage, or number of households that the CoC reached to date for each objective.

CoCs will also indicate if they submitted an Exhibit 1 in FY2010. If a CoC did not submit an Exhibit 1 in FY2010, enter "No" to the question. CoCs that did not fully meet the proposed numeric achievement for any of the objectives should indicate the reason in the narrative section.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

<table>

</tr>
<tr>
<td>Increase the percentage of homeless persons employed at exit to at least 20%</td>
<td>10 %</td>
<td>27 %</td>
</tr>
<tr>
<td>Decrease the number of homeless households with children.</td>
<td>257 Households</td>
<td>231 Households</td>
</tr>
</tbody>
</table>
Did the CoC submit an Exhibit 1 application in FY2010? Yes

If the CoC was unable to reach its FY2010 proposed numeric achievement for any of the national objectives, provide a detailed explanation (limit 1500 characters)

There were a variety of reasons we did not see the %80 remaining in permanent housing; we had consumers move into their own housing either with or without rental subsidy, some returned to family homes, some were non-compliant with program rules, and consumers died with in the reporting year.
**4B. Continuum of Care (CoC) Chronic Homeless Progress**

**Instructions:**

HUD tracks each CoCs progress toward ending chronic homelessness. In the FY2011 CoC NOFA, chronically homeless is defined as an unaccompanied homeless individual with a disabling condition, or a family with at least one adult member who has a disabling condition, who has either been continuously homeless for at least a year OR has had at least four episodes of homelessness in the last three (3) years.

CoCs are to track changes from one year to the next in the number of chronically homeless persons as well as the number of beds available for this population. CoCs will complete this section using data reported for the FY2009, FY2010, and FY2011 (if applicable) point-in-time counts as well as the data collected and reported on the Housing Inventory Counts (HIC) for those same years. For each year, indicate the total unduplicated point-in-time count of chronically homeless as reported in that year. For FY2009 and FY2010, this number should match the number indicated on form 2J of the respective years Exhibit 1. For FY2011, this number should match the number entered on the Homeless Data Exchange (HDX).

**Indicate the total number of chronically homeless persons and total number of permanent housing beds designated for the chronically homeless persons in the CoC for FY2009, FY2010, and FY2011.**

<table>
<thead>
<tr>

If the number of chronically homeless persons increased or if the number of permanent beds designated for the chronically homeless decreased, please explain (limit 750 characters):

We were able to increase the total number of chronically homeless beds by 4 at Kathryn Leigh by saving $125 per unit per month for leasing making an additional $21000 available with an funding increase. In addition we clarified existing beds as being designated for chronically homeless, therefore we included Horizons Housing and Cottonwood in the count of permanent housing for the chronically homeless. This accounts for the change in beds from 23 to 53 from 2010 to 2011 with only an actual increase of 4 new beds.
4C. Continuum of Care (CoC) Housing Performance

Instructions:
All CoC funded non-HMIS projects are required to submit an Annual Performance Report (APR), or Transition APR (TAPR) within 90 days of a given operating year. To demonstrate performance on participants remaining in permanent housing for more than six months, CoCs must use data on all permanent housing projects that should have submitted an APR, or TAPR, for the most recent operating year. Projects that did not submit an APR, or TAPR, on time must also be included in this calculation.

Complete the table using data entered for Question 12(a) and 12(b) for the most recent submitted APR, Q27 from the TAPR, for all permanent housing projects (SHP-PH, or Sac TRA/SRA/SRO/PRA) within the CoC that should have submitted one. Enter totals in fields a-e. The Total PH percent will auto-calculate by selecting "Save." The percentage is calculated as: c+d, divided by a+b, multiplied by 100. The last field, e., is excluded from the calculation.

CoCs that do not have SHP-PH or S+C projects for which an APR, or TAPR, was required should select "No" if the CoC did not have ANY CoC-funded permanent housing projects operating within their CoC that should have submitted an APR, or TAPR.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Does the CoC have any permanent housing projects (SHP-PH or S+C) for which an APR was required to be submitted? Yes

<table>
<thead>
<tr>
<th>Participants in Permanent Housing (PH)</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Number of participants who exited permanent housing project(s)</td>

<tr>
<td>c. Number of participants who exited after staying 6 months or longer</td>
<td>24</td>
</tr>
<tr>
<td>d. Number of participants who did not exit after staying 6 months or longer</td>
<td>48</td>
</tr>
<tr>
<td>e. Number of participants who did not exit and were enrolled for less than 6 months</td>
<td>13</td>
</tr>
<tr>
<td>TOTAL PH (%)</td>
<td>67</td>
</tr>
</tbody>
</table>

Instructions:
HUD will also assess CoC performance in moving participants in SHP transitional housing programs into permanent housing. To demonstrate performance, CoCs must use data on all transitional housing projects that should have submitted an APR, or TAPR, for the most recent operating year. Projects that did not submit an APR, or TAPR, on time must also be included in this calculation.

Complete the table below using cumulative data entered for Question 14 on the most recent submitted APR, Q29 on the TAPR, for all transitional housing projects (SHP-TH) within the CoC that should have submitted one. Once amounts have been entered into a. and b. selection "Save." The Total TH will auto-calculate. The percentage is auto-calculated as: b. divided by a, multiplied by 100. CoCs that do not have SHP-TH projects for which an APR was required should select "No" to the question below. This only applies to CoCs that do not have any CoC-funded transitional housing projects currently operating within their CoC that should have submitted an APR.

**Does CoC have any transitional housing projects (SHP-TH) for which an APR was required to be submitted?**

Yes

<table>

<tr>
<td><strong>TOTAL TH (%)</strong></td>
<td><strong>92</strong></td>
</tr>
</tbody>
</table>
4D. Continuum of Care (CoC) Enrollment in Mainstream Programs and Employment Information

Instructions:
HUD will assess CoC performance in assisting program participants with accessing mainstream services to increase income and improve outcomes such as health, education, safety, and/or economic outcomes of homeless persons. To demonstrate performance, CoCs must use data on all non-HMIS projects (SHP-PH, SHP-SH, SHP-SSO, S+C TRA/SRA/PRA/SRO) that should have submitted an APR (either the HUD-40118 or the HUD APR in e-snaps) for the most recent operating year. Projects that did not submit an APR on time must also be included in this calculation.

Complete the table below using cumulative data entered for question 11 on the most recent submitted HUD-40118 APR or Q26 for the HUD APR in e-snaps for all non-HMIS projects within the CoC that should have submitted one. Each CoC shall first indicate the total number of exiting adults. Next, enter the total number of adults who exited CoC non-HMIS projects with each source of income. Once amounts have been entered, select "Save" and the percentages will auto-calculate. CoCs that do not have any non-HMIS projects for which an APR was required should select "No" to the question below. This only applies to CoCs that do not have any CoC-funded non-HMIS projects currently operating within their CoC that should have submitted an APR.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

The percentage values will be calculated by the system when you click the "save" button.

Does the CoC have any non-HMIS projects for which an APR was required to be submitted? Yes
4E. Continuum of Care (CoC) Participation in Energy Star and Section 3 Employment Policy

Instructions:

HUD promotes energy-efficient housing. All McKinney-Vento funded projects are encouraged to purchase and use Energy Star labeled products. For information on the Energy Star Initiative go to: http://www.energystar.gov

A "Section 3 business concern" is one in which: 51% or more of the owners are Section 3 residents of the area of services; or at least 30% of its permanent full-time employees are currently Section 3 residents of the area of services; or within three years of their date of hire with the business concern were Section 3 residents; or evidence of a commitment to subcontract greater than 25% of the dollar award of all subcontracts to businesses that meet the qualifications in the above categories is provided. The Section 3 clause can be found at 24 CFR Part 135.

Has the CoC notified its members of the Energy Star Initiative? Yes

Are any projects within the CoC requesting funds for housing rehabilitation or new construction? No
4F. Continuum of Care (CoC) Enrollment and Participation in Mainstream Programs

It is fundamental that each CoC systematically help homeless persons to identify, apply for, and follow-up to receive benefits under SSI, SSDI, TANF, Medicaid, Food Stamps, SCHIP, WIA, and Veterans Health Care as well as any other State or Local program that may be applicable.

Does the CoC systematically analyze its projects APRs in order to improve access to mainstream programs?
Yes

If 'Yes', describe the process and the frequency that it occurs.
All project APRs are reviewed and discussed at the weekly COC grant meeting. All agencies also fill out CoC-designed charts more specifically detailing mainstream benefits for all clients exiting their programs. These are reviewed annually as agencies begin the COC grant process. The full CoC, The Tri-County Homeless Interagency Council, along with the Transitional Housing SubCommittee and the Permanent Housing SubCommittee, meet monthly to share strategies and successes in linking clients to mainstream resources.

Does the CoC have an active planning committee that meets at least 3 times per year to improve CoC-wide participation in mainstream programs?
Yes

If "Yes", indicate all meeting dates in the past 12 months.

Does the CoC coordinate with the State Interagency Council on Homelessness to reduce or remove barriers to accessing mainstream services?
Yes

Does the CoC and/or its providers have specialized staff whose primary responsibility is to identify, enroll, and follow-up with homeless persons on participation in mainstream programs?
Yes

If yes, identify these staff members
Both

Does the CoC systematically provide training on how to identify eligibility and program changes for mainstream programs to provider staff.
Yes
If "Yes", specify the frequency of the training. Monthly or more

Does the CoC use HMIS as a way to screen for mainstream benefit eligibility? No

If "Yes", indicate for which mainstream programs HMIS completes screening.

Has the CoC participated in SOAR training? Yes

If "Yes", indicate training date(s).

2/19/07; 2/20/07; 8/4/08; 8/28/08; 12/10/08. The CoC no longer holds to a policy of periodically training caseworkers in SOAR procedures as a collateral responsibility. In January 2010, the CoC began operating its SOAR program through employment of a single dedicated case worker. The new model follows a national best practice. The program is managed by the United Way/10YP in collaboration with the New Hanover Regional Medical Center and Triangle Coastal Disability Advocates. Initial funding for the program was the result of a grant the 10YP obtained from the Blue Cross and Blue Shield of North Carolina Foundation. Ongoing SOAR program funding is now based on re-investment of a percentage of direct Medicaid reimbursements derived by New Hanover Regional Medical Center through SOAR client Medicaid/Medicare entitlement.
### 4G: Homeless Assistance Providers Enrollment and Participation in Mainstream Programs

Indicate the percentage of homeless assistance providers that are implementing the following activities:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Case managers systematically assist clients in completing applications for mainstream benefits. 1a. Describe how service is generally provided:</td>
<td>100%</td>
</tr>
<tr>
<td>Case Managers meet with the applicants. Goals and a person centered plan are created to document progress and success. In some cases the Case Managers present the individuals’ information to the Permanent Supportive Housing Coalition.</td>
<td></td>
</tr>
<tr>
<td>2. Homeless assistance providers supply transportation assistance to clients to attend mainstream benefit appointments, employment training, or jobs.</td>
<td>100%</td>
</tr>
<tr>
<td>3. Homeless assistance providers use a single application form for four or more mainstream programs: 3a. Indicate for which mainstream programs the form applies:</td>
<td>100%</td>
</tr>
<tr>
<td>Mental Health Center; DSS; Health Department; Homeless Shelter</td>
<td></td>
</tr>
<tr>
<td>4. Homeless assistance providers have staff systematically follow-up to ensure mainstream benefits are received. 4a. Describe the follow-up process:</td>
<td>100%</td>
</tr>
<tr>
<td>Through the Case Management Service, the Homeless Assistance Providers meet with the individuals to confirm that mainstream benefits are being received. If not, assistance and follow-up are provided until the goal is met.</td>
<td></td>
</tr>
</tbody>
</table>
## Continuum of Care (CoC) Project Listing

### Instructions:

IMPORTANT: Prior to starting the CoC Project Listing, CoCs should carefully review the "CoC Project Listing Instructions" and the "CoC Project Listing" training module, both of which are available at www.hudhre.info/esnaps.

To upload all Exhibit 2 applications that have been submitted to this CoC, click on the "Update List" button. This process will take longer based upon the number of projects that need to be located. The CoC can either work on other parts of Exhibit 1 or it can log out of e-snaps and come back later to view the updated list. To review a project, click on the next to each project to view project details.
